Subject: RE: DC Transmission Line Reroute Case No. PU-13-103

Hello Jerry,

After reviewing the construction notes and the Tree and Shrub Survey Report that was included in the Supplemental Application for Minnesota Power's DC Transmission Line Reroute (PU-13-103), no trees or shrubs were removed during construction. Therefore, no mitigation stems will need to be planted for the project.

If you need additional documentation please let me know.

Regards,

Dan
