Re: PSC Case # PU-13-136 - Hiland Crude LLC  
My Clients: LaVern & Julianna Vance

Dear Ladies and Gentlemen,

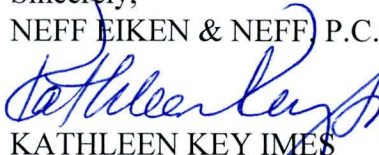

I represent LaVern and Julianna Vance, whose homestead is situated approximately 223 feet away from that certain Hiland gathering line which is the subject of the above referenced matter.

We understand Hiland Crude LLC is seeking to change the use of this crude oil pipeline from a gathering line to a pressurized transmission line.

Please be advised that my clients object to Hiland's application for waivers of procedures and for a certificate of corridor compatibility. My clients further hereby request notice of any and all filings in this case by Hiland Crude, LLC, or any other person or entity. You may send such notice directly to me on behalf of my clients.

My clients will appear at the hearing scheduled for June 17, 2014 in Williston and any other hearings which may be scheduled regarding this matter. They will introduce documentary and testimonial evidence supporting their position that the waivers of procedures should not be allowed in this case, and that the certificate of corridor compatibility should be denied.

On behalf of LaVern and Julianna Vance, I respectfully request that the Commission give due deference to the direct human impact of Hiland's proposal. Thank you.

Sincerely,  
NEFF EIKEN & NEFF, P.C.  
  
KATHLEEN KEY IMES
