**RE: Hiland Crude, LLC —  
Case Number PU-13-136, Supplement to  
late-filed exhibits**

Dear Mr. Nitschke:

Hiland Crude, LLC (“Hiland”) recently filed several late-filed exhibits with the Public Service Commission (“Commission”). Two of those exhibits consisted of maps: a map depicting locations of all block valves, and a map depicting locations of digs to determine pipeline depth. The electronic versions of the maps the Commission received were intended to be high resolution. However, Commission staff has indicated that this was not the case. To that end, please find enclosed herewith a CD containing high resolution versions of the above-described maps.

If you have any questions, please advise.

Sincerely,

  
JILLIAN RUPNOW
