Siting Application

Case No. PU-13-136

NOTICE OF FILING AND NOTICE OF OPPORTUNITY FOR HEARING

March 23, 2016

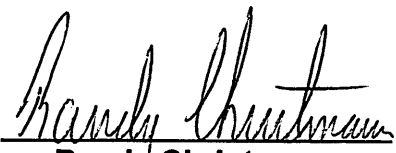

Hiland Crude, LLC (Hiland) has filed an Application for Modification of Certification Relating to Order Provisions (Application) concerning language contained within the Certification Relating to Order Provisions (Certification) executed by Hiland, and incorporated by reference and attached to the Findings of Fact, Conclusions of Law and Order, issued by the Commission on October 8, 2014, the Amended Findings of Fact, Conclusions of Law and Order, issued by the Commission on November 11, 2014, and the Second Amended Findings of Fact, Conclusions of Law and Order, issued by the Commission on February 25, 2015, all in Case No. PU-13-136.

In its Application, Hiland requests that language contained within the Certification that requires a company to file with the Commission an application for a route permit or site certificate in the event the company desires to construct within the corridor granted by the Commission a transmission facility or energy conversion facility that was not included in the company's application in the proceeding be stricken and that Hiland not be required to comply with this provision. The issue to be considered is whether the requested amendment to the Certification to Order Provisions which was incorporated by reference and attached to the Second Amended Findings of Fact, Conclusions of Law and Order should be granted.

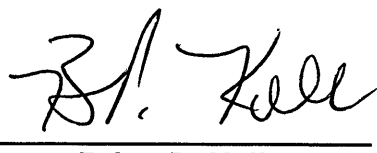

Persons desiring a hearing must file a written request identifying their interest in the proceeding and the reasons for requesting a hearing. **Comments and requests for hearing must be received by April 22, 2016.** If deemed appropriate, the Commission can determine the matter without a hearing.
