Re: Case No. WM-13-162

Attn: Patrick Fahn, Director

Request for Temporary Variance Permit Extension

Existing Temporary Variance Permit expires October 31, 2014. Environmental Materials respectfully requests an extension to this Variance based on the following facts.

Original scale installation was done to manufacture drawing specifications, and meets manufacture specifications in every aspect.

Submitted quarterly testing shows scale performance is with North Dakota State operating specifications and tolerances.

Environmental Materials has respectfully followed the North Dakota State variance requirements to the best of their ability when subject to a third parties scheduling of testing required for existing Variance.

September 29, 2014

Respectfully Submitted,

Karey Reynolds
