Yes, sounds reasonable to wait until October.

Hi Josh

What are your thoughts on this request?

Attached is the variance that was issued. According to my records, the last inspection date is January 14, 2016.

Shelly,

I had a question for you regarding EMI in Killdeer, North Dakota. If they decide to not get their scale certified for this quarter what would happen with their license. They are not selling off of the scale and do not plan to use the scale for commercial use until October of 2016. Would they be able to skip this certification and once we certify the scale in October be able to use the scale as legal for trade?

Please let me know your thoughts. Thank you.

Very truly yours,

Dylan Moses
