Hi Dylan

The scale at EMI must be tested no later than April 14, 2017. We are in the process of reviewing information and will be making a determination on the status of the variance permit.

If you need anything else, please let me know.

Thank you!

Shelly,

Do you happen to have an update on any decision that has been made with EMI in Killdeer North Dakota. Let me know when you can. Thank you for the help on this.

Very truly yours,

Dylan Moses

Shelly,

I am touching base again regarding EMI in Killdeer North Dakota. They are not planning on using the scale again until next spring. Business is slow in that area and they have not used it for commercial use in some time. We received a pass on the testing this summer from you and was hoping to extend it further. They do not want us to come out unless forced to do so by the state due to their limited to no use of the scale. Please let me know your thoughts. Thank you.
