Hello Jeff,

Jim Boyd provided me with your contact information for Letters of Clearance on federal grant applications shortly before he retired. Attached is the draft federal grant application containing Standard Form 424 for the Public Service Commission's 2014 Administration and Enforcement grant for the coal regulatory program. This grant application will be submitted next week to the federal Office of Surface Mining (OSM) within the Department of the Interior. We will be requesting \$930,777 in federal funds that OSM just allocated for the next grant period that begins July 1, 2013 and ends June 30, 2014. The state share for this grant period is \$523,622, with the total amount being \$1,454,399. I would appreciate it if you will provide me with the **State Application Identifier number and Letter of Clearance** for this grant application.

The submittal of this grant application has been delayed since OSM since just informed us today of the maximum amount of federal funds we could request. The sequestration of federal funds caused the delay in the announcement of this year's allocations for state program grants.

If you have any questions, please let me know.
