Comments:

The customer, being aware of the proximity of McKenzie Electric's facilities, has chosen that Montana-Dakota Utilities (MDU) serve his property. Both M.D.U. and McKenzie Electric have existing underground lines along Highway 200 right-of-way running parallel to his property. However, we conducted a field analysis which shows our lines to be 12' closer to the service point than McKenzie's electric lines and they would have to cross our lines to serve the customer.

Since the property is very close to the Killdeer city boundary, to avoid delays, we did not contact the R.E.C. as the customer has fully committed to MDU service and the foundation for his building is already poured. As of this writing, we are not aware whether McKenzie Electric would protest our service request. MDU is filing for the authority to serve this customer.
