Mr. Darrell Nitschke
Executive Secretary
North Dakota Public Service Commission
600 East Boulevard Avenue, 12th Floor
Bismarck, North Dakota 58505-0480

Re: **Missouri Valley Communicaitons/Nemont Telephone Cooperative's
Application for Trade Secret Protect**

Dear Mr. Nitschke:

Missouri Valley Communications/Nemont Telephone Cooperative, Inc. (Nemont) is submitting this Application to request that the financial information contained in our FCC Form 481 be treated as confidential. This information has been filed with the Federal Communications Commission (FCC) subject to a Protective Order, issued by the FCC on November 16, 2012.

Information claimed confidential includes detailed financial data that is competitively sensitive data not normally made available to the public. Public disclosure of such information would likely cause substantial harm to the financial position of Nemont. Competitors, such as other telecommunication providers including CLEC's and wireless companies, can gain an unfair economic advantage if financial information is not kept confidential. This sensitive information is only made available to the Board of Directors, the Federal Communications Commission and state Commission. Nemont is requesting that financial information including income statement, cash flow statement, and balance sheet be treated as confidential information.

Nemont is a privately held Rate of Return carrier and reports information to a board of directors. The FCC has allowed privately held Rate of Return carriers to submit their filings to the FCC confidentially and Nemont respectfully requests that the same information provided to the FCC be treated in the same manner with the Commission.

Other telecommunications carriers such as wireless, long distance, cable companies and other Local Exchange Carriers should not be granted access to this filing.

The FCC has granted a blanket Protective Order for the filing of confidential information. In addition, Nemont has filed for a Protective Order in Montana to keep the financial information confidential.

If you have any questions or need additional information, please contact Twyla Holum at 406-783-2264 or via e-mail at twyla.holum@nemont.coop.

Sincerely,

Remi Sun
Chief Financial Officer
Missouri Valley Communications/Nemont Telephone Cooperative, Inc.
