**Attachments:** Temp. Auth Permit.pdf

Dear Cara - Having reviewed the attached request by Otter Tail Power Company to serve a rural grain bin site with three phase power, specifically listed at being located in the NW ¼ of the NE ¼ of Section 11, T132N, R56W of Sargent County, CCEC will not object to the application for granting temporary authority to provide electric service.

We do request and reserve the right to comment on the request for permanent service authority by OTP, and Cass Electric will retain its existing single phase service at this location for the existing farmstead and any other future loads that might develop.

If you have any questions, please don't hesitate to contact us at your convenience.

Sincerely,

Brad

**Subject:** Temporary Authority Permit

Hello,  
Please find attached a request from Otter Tail Power Company for temporary authority to extend electric services to Johnson-Larson Farms in Sargent County, North Dakota.

Please review this request as soon as possible and let me know whether the Cooperative will protest this application.

Thank you for your attention in this matter.
