Good Afternoon Kevin

We received your request, dated April 26, 2013, for a metrology recertification extension due to metrology appointment availability with the state of Minnesota.

Under North Dakota Administrative Code Section 69-10-03-02, the Commission may extend the twelve-month recertification interval to fifteen months.

Based on your request, I am extending the 2013-2014 recertification for your standards from May 7, 2013 to June 28, 2013.

If you have any questions, please contact me.

Thank you.

Good Afternoon Kevin

Our records indicate that your **calibration certificates** for your field standards used in the State of North Dakota will expire on 5/7/2013.

Please have your standards re-certified by a NIST-accredited facility and forward copies of the **2013-2014** metrology certificates to us at the address listed below.

Please note: The metrology lab that calibrates your equipment must be certified as traceable by NIST/OWM. Calibrations by other labs will not be accepted in North Dakota.

Also, please fill-out the attached Application for Registration as a Registered Service Company and submit it along with your new metrology certificates.

If you have any questions, please contact me.

Thank you.
