

Subject: Help AARP ND oppose MDU's natural gas rate change

## HTML

Dear Josh,

Are you a Montana Dakota Utilities (MDU) customer? With winter upon us, can you afford an increase in what you pay each month to heat your home?

Unfortunately, MDU is proposing to double the monthly fixed charge you pay for natural gas. [Please click here to sign our petition to the Public Service Commission asking them to STOP MDU from increasing the fixed charges for natural gas delivery.](#)

State regulators have approved a rate increase totaling more than \$4 million per year. What is alarming is MDU's proposal to significantly increase the fixed or flat fee for the entire non-fuel portion of the rates charged to its residential customers. Current MDU gas customers pay about \$9 per month in a fixed delivery charge to have gas service provided for their homes. Additionally, consumers pay for service based on the amount of gas they use per month. This design allows the consumer like you, to see rewards for conserving energy. This helps North Dakotans who may be living on fixed incomes by ensuring they do not face burdensome fixed charges before they consume any natural gas.

Under MDU's proposal, the fixed charge will increase from \$9 to \$18 a month, BEFORE you use any gas. [Please click here to sign AARP's petition asking the PSC to keep utility rates affordable!!!](#)

Any rate increase is a struggle; particularly for someone living on a fixed income. AARP does not think this is right and is urging the PSC to stop MDU from making this drastic change.

Hi Josh,

As the weather continues to be a whirlwind of cold and snow followed by intermittent "warm" days, we want to give every MDU customer one last chance to tell the PSC to not implement MDU's fixed rate charge for natural gas. If you missed the earlier emails you can find the full story below. Take action today before it's too late. We have to tell the PSC by February 3rd, so [click here and sign the petition today!](#)
