March 2017 Construction Update

The Big Stone South to Ellendale Project construction crews are on a temporary hold due to spring road restrictions. Crews are demobilizing and are anticipated back at the end of March or early April. During the road restriction period, crews will be conducting clean-up activities.

With the weather's cooperation and our professional construction crew, we made good progress with foundation construction this winter. To see a map of our construction work, visit our [online interactive construction map](#).
