

An aerial photograph of the Kalamazoo River in Michigan. The river is heavily polluted with a thick, dark, brownish-black oil spill that stretches along its length. The surrounding landscape consists of green fields, dense forests, and some residential areas. The text 'Coming soon to the Red River?' is overlaid in large, bold, black letters across the top half of the image.

**Coming soon  
to the Red River?**

**Kalamazoo River  
July 2010, over 800,000 gallons of oil spilled**
