Salmonson Reroute

Mr. Scott Salmonson filed Exhibit No. 3 entitled Salmonson #1 at the North Dakota Public Service Commission Hearing in Grand Forks, North Dakota on February 19th, 2014. Mr. Salmonson stated that the Sandpiper Pipeline is proposed to cross his land in Section 15 of Walle Township in Grand Forks County. Mr Salmonson has proposed that North Dakota Pipeline Company LLC consider rerouting the pipeline to the north where there are no homes or home sites, which would also reduce the number of bends that the pipeline would be required to make.

This request was reviewed by Engineering. While the reroute adds an additional road crossing, it does straighten the alignment and is roughly the same length as the original route. As such, the proposed reroute was approved. The attached map shows the approved reroute.
