Mr. Darrell Nitschke
Executive Director
North Dakota Public Service Commission
600 E. Boulevard Ave., Dept. 408
Bismarck, ND 58505-0480

Dear Mr. Nitschke:

In re: North Dakota Pipeline Company LLC
Sandpiper Project
Case No. PU-13-848
Our File No. 31-411-010

Pursuant to a recent request from counsel for the Public Service Commission, we enclose the following, being supplements to Late Filed Exhibit No. 6 with respect to route design and engineering. The supplements are as follows:

1. A diagram that depicts the elevation of the proposed Sandpiper Pipeline for its entire route.
2. A sealed envelope containing plats with regard to proposed route engineering depicting the footage setbacks at which the pipeline will be bored at two Souris River crossings. These plats are contained in the sealed envelope as they contain critical energy infrastructure information, not to be released to the public.
3. Application requesting confidential critical energy infrastructure information status as to the route engineering information set forth in the plats noted in paragraph No. 2 above.

Please call should you have any questions.

Very truly yours,

Brian R. Bjella
