**ALL CASES**

16. For its defense, Northern did not deny damaging RTC's facilities. Rather, Northern contended the damage was caused either as a result of protecting the trench, in the backfill process, or otherwise due to poor soil conditions and groundwater. Northern also did not contend the facilities were improperly marked, except in Case No. PU-13-882, Northern contended the facility was damaged as a result of an "S-type" loop in the facility due to a previous repair. In all cases, the evidence demonstrated the lines were properly marked but damaged by Northern's trackhoe during excavation activities. It is the excavator's responsibility to conduct the excavation in a careful and prudent manner, which means "excavating within twenty-four inches [] of the outer edges of an underground facility located manually and marked by the owner or operator by stakes, pain, or other customary manner, and supporting and protecting the uncovered facility." North Dakota Century Code section 49-23-01(3).

17. In addition, North Dakota Century Code section 49-23-05 requires an excavator to:

1. Maintain a clearance between an underground facility and the cutting edge or point of any mechanized equipment, considering the known limit of control of the cutting edge or point to avoid damage to the facility.
2. Provides support in a manner approved by the operator for underground facilities in and near the construction area, including backfill operations to protect the facilities. []

.....

6. Properly manage spoil material to prevent shifting or falling material that could damage belowground facilities.

18. All of Northern’s claimed defenses to the damage it caused to RTC’s facilities, even if correct, are still violations of North Dakota Century Code section ch. 49-23.

19. Northern is liable to reimburse RTC for the costs identified under North Dakota Century Code section 49-23-06(2)(a): “repair and restoration, loss of product, and interruption of service occurring because of the damage or injury to the facilities, together with reasonable costs and expenses of suit, including reasonable attorney’s fees”.

From the foregoing Findings of Fact and Conclusions of Law, the Commission now makes its:

**Order**

The Commission orders that Northern violated North Dakota Century Code chapter 49-23, the North Dakota One-Call law.

For the reasons testified to by Victor Schock at the hearing, the Commission orders Northern to pay a fine of \$1000 in Case No. PU-13-877, \$1000 in Case No. PU-13-878, \$1500 in Case No. PU-13-879, \$3000 in Case No. PU-13-880, \$3000 in Case No. PU-13-881, \$3500 in Case No. PU-13-882, \$4000 in Case No. PU-13-883 for a total of \$17,000 payable to the North Dakota Public Service Commission within ten business days of the service of this Order.

**Preliminary Statement**

On March 20, 2014, Reservation Telephone Cooperative (RTC) filed with the Public Service Commission (Commission) a ND One-Call Complaint form, alleging a violation by Northern Excavating Co., Inc (Northern) of North Dakota Century Code chapter 49-23, One-Call Excavation Notice System (One-Call Law).

On October 29, 2014, Advocacy Staff filed a formal complaint against Northern, alleging violation of the One-Call Law, and requesting the Commission find Northern in violation of the One-Call Law and impose a penalty of \$5500.

On November 6, 2014, the Commission found the Complaint states a *prima facie* case and directed the complaint be served on the Respondent, Northern.

The notice identified the following issues to be considered:

1. Has Northern violated North Dakota Century Code Chapter 49-23, the North Dakota One-Call law?
2. If a violation is found, should the Commission impose a civil penalty in the amount of \$5500?

The public hearing was held as scheduled.

Having allowed all interested persons an opportunity to be heard and having heard, reviewed, and considered all testimony and evidence presented, the Commission makes the following:

### **Findings of Fact**

1. Northern Excavating Co., Inc. is a North Dakota corporation with offices located at 3420 82<sup>nd</sup> Avenue Southeast, Jamestown, ND 58402-1108.
2. Reservation Telephone Cooperative is a North Dakota cooperative with offices located at 24 North Main Street, Parshall, ND 58770.
3. On August 15, 2013, Northern provided an excavation notice to the North Dakota One-Call (NDOC) Notification Center for excavation by Northern, scheduled to begin on August 19, 2013. The NDOC Notification Center assigned locate ticket number 13132439 to this excavation notice.
4. On August 22, 2013, Northern began an excavation as defined under North Dakota Century Code section 49-23-01(7) at 2<sup>nd</sup> Street and Central Avenue, Ross, ND.
5. On August 22, 2013, a 4 fiber and a 2 fiber drop at 2<sup>nd</sup> Street and Central Avenue, operated by RTC, was damaged during the excavation performed by Northern.

6. Shane Hart (Assistant General Manager for RTC) testified that the cost to repair the damage to the 4 fiber and 2 fiber drop cables is \$1522.51. Northern has not reimbursed RTC for the damages.

7. Cassie Steele (Line Locator for RTC) testified that the line was properly marked, Kyle Benson (Foreman for Northern) called her to let her know that Northern had hit one of RTC's lines, and her markings were still visible in the area when she came onsite directly after receiving notice of the damage.

8. Northern did not offer any evidence at the hearing. Robert Lindberg, on behalf of Northern, argued in his closing argument that Northern took the proper precautions to protect the underground facilities.

### **Conclusions of Law**

1. The Commission has jurisdiction over this proceeding.

2. The August 22, 2013 activity by Northern was an excavation and damaged the 4 fiber and 2 fiber drop at 2<sup>nd</sup> Street and Central Avenue in Ross, ND.

3. From the totality of the circumstances, the Commission concludes that Northern did not act in a careful and prudent manner when conducting the excavation on August 22, 2013. Northern did not deny damaging the facilities and did not present any evidence the facilities were not properly marked. It is the excavator's responsibility to conduct the excavation in a careful and prudent manner, which means "excavating within twenty-four inches [60.96 centimeters] of the outer edges of an underground facility located manually and marked by the owner or operator by stakes, pain, or other customary manner, and supporting and protecting the uncovered facility." The evidence demonstrates Northern did not excavate in a careful and prudent manner, causing damage to the facilities with its trackhoe during excavation activities.

4. Northern is liable to reimburse RTC for the costs identified under North Dakota Century Code section 49-23-06(2)(a):" repair and restoration, loss of product, and interruption of service occurring because of the damage or injury to the facilities, together with reasonable costs and expenses of suit, including reasonable attorney's fees".
