RE: COST OF GAS RIDER CHANGE

Dear Executive Secretary:

Northern States Power Company, doing business as Xcel Energy, is filing this COG for gas used on and after September 1, 2014 in North Dakota. The attached schedules show the new gas cost supporting worksheets and applicable pipeline tariff sheets.

The net effect of the COG is an increase to the Residential rate by \$0.08285 per therm from the August COG rate, 19.52%, or \$1.16 for a typical September North Dakota Residential customer using 14 therms. Compared to August, the Commercial/Industrial price is 15.08% higher and the Interruptible prices are 15.83-17.11% higher.

The increase is mostly the result of increased annual true-up factors and partially due to commodity costs. The commodity costs increased due to monthly price fluctuations. Compared to last September, prices are 22-29% higher.

The 2013 – 2014 Annual True-up of Gas Costs is being filed concurrently with the COG. The true-up factors are higher for all classes. The new factors made the gas costs increase for all classes. The large increase in true-up factors is due to high gas costs last winter due to nationally cold weather and the structure of the COG recovery process.

The cost-of-gas rates for September are as follows:

<u>Customer Class:</u>	<u>\$/therm</u>
Residential	\$0.50727
Commercial/Industrial	\$0.50969
Small & Large Interruptible	\$0.48058

Please contact Martha Hoschmiller at martha.e.hoschmiller@xcelenergy.com or (612)330-5973 or me at paul.lehman@xcelenergy.com or (612)330-7529 if you have questions regarding this filing.

Sincerely,

/s/
