RE: COST OF GAS RIDER CHANGE

Dear Executive Secretary:

Northern States Power Company, doing business as Xcel Energy, is filing this COG for gas used on and after November 1, 2014 in North Dakota. The attached schedules show the new gas cost supporting worksheets and applicable pipeline tariff sheets.

The net effect of the COG is an increase to the Residential rate by \$0.06032 per therm from the October COG rate, 11.85%, or \$5.43 for a typical November North Dakota Residential customer using 90 therms. Compared to October, the Commercial/Industrial price is 9.73% higher and the Interruptible prices are 2.2-2.35% higher. The increase is a result of winter demand rates going into effect and increased commodity costs.

The commodity costs increased due to forecasts of colder than temperatures in key consuming regions. Compared to last November, prices are 17-23% higher.

The cost-of-gas rates for October are as follows:

<u>Customer Class:</u>	<u>\$/therm</u>
Residential	\$0.56954
Commercial/Industrial	\$0.57196
Small & Large Interruptible	\$0.49506
