RE: Wind Turbine Inspections
Building Permit number: 15-131 (Sunflower Wind Project)

To whom it may concern:

Morton County will not require an inspection wind turbine and/or the turbine foundation.

However, an inspection is required for foundations for each building/structures, such as utility, office or maintenance buildings.

We would appreciate communication on the project as it progresses. Morton County does not require any inspections for Wind Turbines and/or foundation of the Wind Turbines.

Sincerely,

Linda Morris
Morton County Building Inspection
