Subject: Sunflower Wind Project

Jerry,

I wish I was writing with better news but wanted to update you on the below.

Per the ND-03 Sunflower PSC 2014-06-25 Cert Site Compatibility (PSC 2014-05-09 Order Provisions item number 30) Sunflower is required to give notice of an emergency event happening onsite. Please accept this as the notice of an injury that occurred at the Sunflower site last evening. A subcontracted employee was spray insulating the operation and maintenance building walls and fell approximately 10 feet onto the concrete floor. The employee was taken via ambulance to a Bismarck Hospital at 8:33pm. The employee is in stable condition and is being held overnight for monitoring.

Please let me know if you have any questions.

Thank You,

Aron Anderson
