Ken,

I understand Des Lacs Refuge who is a current member of MDU, wants to upgrade their existing service and also requested a new service for a trailer. BDEC looks forward to serving all new members that are located within BDEC service territory. However with this particular request BDEC would understand MDU supplying a new service for this trailer, because of the location of your existing facilities. If MDU has any question regarding any other new services, that would be built in BDEC service territory, we would discuss that at a separate date.

Joel,

Have you had a chance to look at the Kenmare Refuge?

Thanks

Jerry,

My name is Ken Callahan I'm the Energy Services Manager for MDU. I've worked with Jason and Curt in the past when it comes to MDU serving loads outside city limits. We currently serve the Des Lacs Refuge and they want an additional service for a trailer. We also need to upgrade our service. Please take a look at this two attached maps and let me know if you have any concerns with MDU serving this additional load.

I know you're out of town until next Monday, I would like to come up and meet with you maybe have lunch to get to know each other in the future. I look forward to meeting you.
If you have any questions please don't hesitate to contact me.

Regards,

Ken Callahan

Curt,

Can you look at this service request and let me know if you have any concerns with MDU serving the new service? We currently serve this customer and have since 1983. Can you also send me your new managers contact information?

Thanks

Ken

Ken,

Do we need to file paperwork to serve a new service at the Kenmare Refuge center in Kenmare, N.D? We need an upgrade to an existing building that we currently serve and they're requesting a new service to a trailer house. The first attached map will give you an idea of how close to Kenmare these services are. The second attached map gives you a close up look at the services. Chad Zorn is the contact for these two services. His contact info is:
