SPECIAL NOTICE

Docket No. 38559, Railroad Classification Index, (ICC served January 20, 1983), modified the reporting requirements for Class II, Class II, and Switching and Terminal Companies. These carriers will notify the Board only if the calculation results in a different revenue level than its current classification.

The dark borders on the schedules represent data that are captured by the Board.

Supplemental Information about the Annual Report (R-1)

The following information is provided in Compliance with OMB requirements and pursuant to the Paperwork Reduction Act of 1995, 44 U.S.C. Sections 3501-3519 (PRA):

This information collection is mandatory pursuant to 49 U.S.C. Section 11145. The estimated hour burden for filing this report is estimated at no more than 800 hours. Information in the Annual Reports is used to monitor and assess railroad industry growth, financial stability, traffic, and operations and to identify industry changes that may affect national transportation policy. In addition, the Board uses data from these reports to more effectively carry out its regulatory responsibilities, such as acting on railroad requests for authority to engage in Board regulated financial transactions (for example, mergers, acquisitions of control, consolidations and abandonments); developing the Uniform Rail Costing System (URCS); conducting rail revenue adequacy proceedings; developing rail cost adjustment factors; and conducting investigations and rulemakings. The information in this report is ordinarily maintained by the agency in hard copy for 10 years, after which it is transferred to the National Archives, where it is maintained as a permanent record. In addition, some of this information is posted on the Board's website, where it may remain indefinitely. All information collected through this report is available to the public. Under the PRA, a federal agency may not conduct or sponsor, and a person is not required to respond to, nor shall a person be subject to a penalty for failure to comply with, a collection of information unless it displays a currently valid OMB control number. Comments and questions about this collection (2140-0009) should be directed to Paperwork Reduction Officer, Surface Transportation Board, 395 E Street SW, Washington, DC 20423-0001.

A. SCHEDULES OMITTED BY RESPONDENT

1. The respondent, at its option, may omit pages from this report provided there is nothing to report or the schedules are not applicable.
2. Show the pages excluded, as well as the schedule number and title in the space provided below.
3. If no schedules were omitted, indicate "NONE."

Page	Schedule No.	Title
		NONE

B. IDENTITY OF RESPONDENT

Answers to the questions asked should be made in full, without reference to data returned on the corresponding page of previous reports. In case any changes of the nature referred to under Inquiry 4 on this page have taken place during the year covered by this report, they should be explained in full detail.

- 1. Give the exact name of the respondent in full. Use the words "The" and "Company" only when they are parts of the corporate name. Be careful to distinguish between *railroad* and *railway*. The corporate name should be given uniformly throughout the report, notably on the cover, on the title page, and in the "Verification." If the report is made by receivers, trustees, a committee of bondholders, or individuals otherwise in possession of the property, state names and facts with precision. If the report is for a consolidated group, pursuant to Special Permission from the Board, indicate such fact on line 1 below and list the consolidated group on page 4.
- 2. If incorporated under a special charter, give date of passage of the act; if under a general law, give date of filing certificate of organization; if a reorganization has been effected, give date of reorganization. If a receivership or other trust, also give date when such receivership or other possession began. If a partnership, give date of formation and also names in full of present partners.
- 3. State the occasion for the reorganization, whether by reason of foreclosure of mortgage or otherwise, according to the fact. Give date of organization of original corporation and refer to laws under which organized.

1. Exact Name of common carrier making this report:

Soo Line Corporation

2. Date of incorporation:

February 4, 1983

3. Under laws of what Government, State, or Territory organized? If more than one, name all. If in bankruptcy, give court of jurisdiction and dates of beginning of receivership and of appointment of receivers or trustees:

Incorporated under the Minnesota statutes, Chapter 302A.

4. If the respondent was reorganized during the year, involved in a consolidation or merger, or conducted its business under a different name, give full particulars:

STOCKHOLDERS' REPORTS

5. The respondent is required to send the Office of Economic and Environmental Analysis, immediately upon preparation, two copies of its latest annual report to stockholders.

Check appropriate box:

Two copies are attached to this report.

Two copies will be submitted on:

(date)

No annual report to stockholders is prepared.

C. VOTING POWERS AND ELECTIONS

1. State the par value of each share of stock: Common \$ 0.01 per share, first preferred \$100,000.00 per share, second preferred \$ N/A per share, debenture stock \$ N/A per share.
2. State whether or not each share of stock has the right to one vote. If not, give full particulars in a footnote
Common Shares: Yes
Preferred Shares: No
3. Are voting rights proportional to holdings: **Yes**
 If no, state in a footnote the relation between holdings and corresponding voting rights.
4. Are voting rights attached to any securities other than stocks **No**. If yes, name in a footnote each security, other than stock, to which voting rights are attached (as of the close of the year), and state in detail the relation between holdings and corresponding voting rights, indicating whether voting rights are actual or contingent, and if contingent, showing the contingency.
5. Has any class or issue of securities any special privileges in the election of directors, trustees, or managers, or in the determination of corporate action by any method **No**. If yes, describe fully in a footnote each such class or issue and give a succinct statement showing clearly the character and extent of such privileges.
6. Give the date of the latest closing of the stock book prior to the actual filing of this report, and state the purpose of such closing
Stock books not closed, last compiled prior to April 9, 1990.
7. State the total voting power of all security holders of the respondent at the date of such closing if within one year of the date of such filing; if not, state as of the close of the year **2,090** votes as of (date) **December 31, 2013.**
8. State the total number of stockholders of record as of the date shown in answer to inquiry No. 7: **One (1)** stockholder.
9. Give the names of the 30 security holders of the respondent who, at the date of the latest closing of the stock book or compilation of the list of stockholders of the respondent (if within one year prior to the actual filing of this report), had the highest voting powers in the respondent, showing for each, his or her address, the number of votes he or she would have had a right to cast on that date had a meeting then been in order, and the classification of the number of votes to which he or she was entitled, with respect to securities held by him or her, such securities being classified as common stock, second preferred stock, first preferred stock, and other securities (stating in a footnote the names of such other securities, if any). If any such holder held in trust, give (in a footnote) the particulars of the trust. In the case of voting trust agreements, give as supplemental information the names and addresses of the 30 largest holders of the voting trust certificates and the amount of their individual holdings. *If the stock book was not closed or the list of stockholders compiled within such year, show such 30 security holders as of the close of the year.*

C. VOTING POWERS AND ELECTIONS - Continued

10. State the total number of votes cast at the latest general meeting for the election of directors of the respondent: 2,090 votes cast.
11. Give the date of such meeting: October 16, 2013
12. Give the place of such meeting: N/A*

* This was an Action in Writing by sole shareholder in lieu of a Meeting.

NOTES AND REMARKS

The consolidated financial statements and supporting schedules included in this annual report include Soo Line Corporation (SOO) and the following subsidiaries:

Soo Line Railroad Company (SLRR)
Soo System Radio Communications Corporation
Dakota, Minnesota & Eastern Railroad Corporation (DME)
Wyoming Dakota Railroad Properties, Inc.
Soo Line Holding Company
Delaware and Hudson Railway Company, Inc. (DH)
Wilkes Barre Connecting Railroad Company
Northern Coal and Iron Company
Albany & Vermont Railroad Company
Saratoga & Schenectady Railroad Company
CPR Locomotive Equity Company
Soo Green Holding LLC
Canadian Pacific PTC LLC

NOTES AND REMARKS

200. COMPARATIVE STATEMENT OF FINANCIAL POSITION - EXPLANATORY NOTES

(Dollars in thousands)

The notes listed below are provided to disclose supplementary information on matters which have an important effect on the financial condition of the carrier. The carrier shall give the particulars called for herein and where there is nothing to report, insert the word "none", and in addition thereto shall enter in separate notes with suitable particulars other matters involving material amounts of the character commonly disclosed in financial statements under generally accepted accounting principles, except as shown in other schedules. This includes statements explaining (1) service interruption insurance policies and indicating the amount of indemnity to which respondent will be entitled for work stoppage losses and the maximum amount of additional premium respondent may be obligated to pay in the event such losses are sustained by other railroads; (2) particulars concerning obligations for stock purchase options granted to officers and employees; and (3) what entries have been made for net income or retained income restricted under provisions of mortgages and other arrangements.

1. Amount (estimated, if necessary) of net income or retained income which has to be provided for capital expenditures, and for sinking funds, pursuant to provisions of reorganization plans, mortgages, deeds of trust, or other contracts: \$ N/A
2. Estimated amount of future earnings which can be realized before paying Federal income taxes because of unused and available net operating loss carryover on January 1 of the year following that for which the report is made: **See Schedule 450 Footnotes, Page 64.**
3. (a) Explain the procedure in accounting for pension funds and recording in the accounts the current and past service pension costs, indicating whether or not consistent with the prior year: **See Note 10 on Pages 9, 10, 11 and 12.**
 - (b) State amount, if any, representing the excess of the actuarially computed value of vested benefits over the total of the pension fund: **See Note 10 on Pages 9, 10, 11 and 12.**
 - (c) Is any part of pension plan funded? Specify: **Yes X No**
 - (i) If funding is by insurance, give name of insuring company N/A

If funding is by trust agent, list trustee(s) **U.S. Bank National Association for defined benefit plans.
Wells Fargo & Company for defined contribution plan.**
Date of trust agreement or latest amendment: **Management defined benefit plan effective January 1, 1976;
UTU defined benefit pension plan effective January 1, 2006; and defined contribution plan effective July 1, 2010.**
If respondent is affiliated in any way with the trustee(s), explain affiliation N/A
 - (d) List affiliated companies which are included in the pension plan funding agreement and describe basis for allocating charges under the agreement. N/A
 - (e) (i) Is any part of the pension plan fund invested in stock or other securities of the respondent or any of its affiliates? Specify: **Yes No X**

If yes, give number of the shares for each class of stock or other security N/A
 - (ii) Are voting rights attached to any securities held by the pension plan? Specify: **Yes X No**

If yes, who determines how stock is voted? **Investment Manager**
4. State whether a segregated political fund has been established as provided by the Federal Election Campaign Act of 1971 (18 U.S.C. 610): **Yes No X**
5. (a) The amount of employers contribution to employee stock ownership plans for the current year was: \$ **381**
 - (b) The amount of investment tax credit used to reduce current income tax expense resulting from contributions to qualified employee stock ownership plans for the current year was: \$ N/A
6. In reference to Docket No. 37465, specify the total amount of business entertainment expenditures charged to the non-operating expense account: \$ N/A

Continued on following page

200. COMPARATIVE STATEMENT OF FINANCIAL POSITION - EXPLANATORY NOTES - Continued

7. Give particulars with respect to contingent assets and liabilities at the close of the year, in accordance with instructions 5-6 in the Uniform System of Accounts for Railroad Companies, that are not reflected in the amounts of the respondent.

Disclose the nature and amount of contingency that is material.

Examples of contingent liabilities are items which may become obligations as a result of pending or threatened litigation, assessments or possible assessments of additional taxes and agreements or obligations to repurchase securities or property. Additional pages may be added if more space is needed. (Explain and/or reference to the following pages.)

See Footnote 9 on Page 9.

- (a) Changes in Valuation Accounts.

N/A

8. Marketable Equity Securities.

N/A

		Cost	Market	Dr (Cr) to Income	Dr (Cr) to Stockholders Equity
(Current Yr.)	Current Portfolio			None	N/A
as of / /	Noncurrent Portfolio			N/A	\$ None
(Previous Yr.)	Current Portfolio			N/A	N/A
as of / /	Noncurrent Portfolio			N/A	N/A

- (b) At 12/31/13, gross unrealized gains and losses pertaining to marketable equity securities were as follows:

	Gains	Losses
Current	\$ -	\$ -
Noncurrent	-	-

- (c) A net unrealized gain (loss) of \$ - on the sale of marketable equity securities was included in net income for (year). The cost of securities was based on the - (method) cost of all the shares of each security held at time of sale.

Significant net realized and net unrealized gains and losses arising after date of the financial statements but prior to the filing, applicable to marketable equity securities owned at balance sheet date shall be disclosed below:

NOTE: / / (date) Balance sheet date of reported year unless specified as previous year.

200. COMPARATIVE STATEMENT OF FINANCIAL POSITION - EXPLANATORY NOTES - Continued

NOTES TO FINANCIAL STATEMENTS

9. COMMITMENTS AND CONTINGENT LIABILITIES

Under the requirements of the Federal Comprehensive Environmental Response, Compensation and Liability Act of 1980 ("Superfund") and comparable state laws, SOO is potentially liable for the cleanup costs of various contaminated sites identified by the U.S. Environmental Protection Agency ("EPA") and comparable state agencies. SOO has been or could be notified by the EPA and state agencies that it is a Potentially Responsible Party ("PRP") for study and cleanup costs at certain sites. In some of these instances, SOO is one of numerous PRP's. In certain cases, future environmental-related expenditures cannot be quantified due to the uncertainty of the cleanup standards, methods to be used, and the number of other PRP's involved. SOO believes its December 31, 2013 undiscounted accruals are adequate to cover known liabilities which are probable and estimable.

10. PENSION AND OTHER EMPLOYEE BENEFITS

SOO participates in a noncontributory defined benefit pension plan. Eligible participants include substantially all SLRR and DH employees who had an employment relationship with SLRR or DH prior to July 1, 2010 and were not covered by a collective bargaining agreement. Benefits are based on final average pay and years of service. Benefits are funded by SLRR and DH contributions, on a proportional basis, and plan earnings are consistent with funding requirements of federal law and regulations. Plan assets consist principally of a domestic stocks, fixed income securities and an international stock fund.

SLRR has a noncontributory defined benefit pension plan for eligible United Transportation Union ("UTU") employees who elected a buyout of certain compensation based work rule payments as of December 31, 1995. Under terms of the plan, upon retirement, eligible employees may elect payments in either a lump sum or an annuity. Payment is based on the eligible employee's total Annual Benefit Credits when they terminate employment with SLRR or its affiliates. Benefits are funded by SLRR contributions and plan earnings are consistent with minimum funding requirements of federal law and regulations. Plan assets consist principally of cash and receivables, mutual funds and fixed income securities.

SLRR and DH provide certain post retirement benefits other than pension consisting of major medical coverage to age 65 and life insurance, both based on age and service requirements, under two distinct plans. Under one plan, eligible participants include substantially all SLRR and DH employees who had an employment relationship with SLRR or DH prior to August 1, 2005 and are not otherwise covered by a collective bargaining agreement. SLRR, as plan sponsor, contracts individually with a third-party administrator. Refer to the tabular information below for additional disclosure information. The second plan covers essentially all SLRR and DH employees who are covered by a collective bargaining agreement. These benefits are administered by multi-employer administrator and therefore SLRR and DH recognize as net benefit retirement cost the required contributions for the period. This cost in 2013 and 2012 was \$4,516 and \$5,899, respectively.

SOO began providing a non-elective, noncontributory defined contribution pension plan for certain employees effective July 1, 2010. Persons eligible for this plan include all SLRR and DH employees hired into salaried positions after July 1, 2010 who are not currently participants in the defined benefit plan; all DME employees who were salaried employees as of July 1, 2010; and all DME employees hired into a salaried position after July 1, 2010. SOO will make an annual contribution to the plan based on a percentage of the employee's eligible compensation. The plan assets are managed by the investment manager.

SOO previously adopted the recognition and disclosure requirements of ASC 715 and 958 (previously SFAS No. 158). The following illustrates the status of each of these benefit plans as of December 31 financial statement date.

A reconciliation of the changes in benefit obligations and fair value of assets of SOO's plans is as follows:

Change in Benefit Obligation	Defined Benefit Pension Plan		UTU Pension Plan		Postretirement Other Than Pension Benefit Plans	
	2013	2012	2013	2012	2013	2012
Benefit obligation at beginning of year	\$173,965	\$162,756	\$1,556	\$1,882	\$27,879	\$27,228

Amounts recognized in SOO's Comparative Statement of Financial Position consists of:

Noncurrent assets	\$0	\$0	\$0	\$0	\$0	\$0
Accrued benefit cost	0	0	0	0	(1,514)	(2,151)
Noncurrent liabilities	(17,904)	(54,242)	(14)	(261)	(15,308)	(25,728)
Deferred tax benefit	14,607	27,705	(57)	(29)	(46)	4,119
Accumulated other comprehensive income (loss)	23,955	47,054	(95)	(49)	(78)	6,996
Net amount recognized	<u>\$20,658</u>	<u>\$20,517</u>	<u>(\$166)</u>	<u>(\$339)</u>	<u>(\$16,946)</u>	<u>(\$16,764)</u>

Amounts recognized in SOO's accumulated other comprehensive income (pre-tax) consist of:

	Defined Benefit Pension Plan		UTU Pension Plan		Postretirement Other Than Pension Benefit Plans	
	2013	2012	2013	2012	2013	2012
Net loss (gain)	\$40,872	\$77,389	(\$152)	(\$78)	(\$1,997)	\$8,704
Prior service cost (credit)	(2,310)	(2,630)	0	0	1,873	2,411
	<u>\$38,562</u>	<u>\$74,759</u>	<u>(\$152)</u>	<u>(\$78)</u>	<u>(\$124)</u>	<u>\$11,115</u>

The SOO plans had accumulated benefit obligations in excess of plan assets as follows as of December 31 in the respective year:

	Defined Benefit Pension Plan		UTU Pension Plan		Postretirement Other Than Pension Benefit Plans	
	2013	2012	2013	2012	2013	2012
Projected benefit obligation	\$157,023	\$173,965	\$1,046	\$1,556	N/A	N/A
Accumulated benefit obligation	147,921	162,540	1,046	1,556	N/A	N/A
Fair value of plan assets	139,119	119,723	1,032	1,295	N/A	N/A

Weighted Average Assumptions used for period end liability

Discount rate	4.51%	3.70%	1.48%	1.10%	4.29%	3.40%
Rate of compensation increase	3.75%	3.75%	N/A	N/A	N/A	N/A

The expected long-term rate of return is generally based on the pension plan's asset mix, assumptions of equity returns based on historical long-term returns on asset categories, expectations for inflation, and estimates of the impact of active management of the assets.

Amortization of prior service (cost) credit	320	320	0	0	(538)	(535)
Total recognized in other comprehensive income	<u>(\$36,197)</u>	<u>(\$3,405)</u>	<u>(\$73)</u>	<u>(\$4)</u>	<u>(\$11,240)</u>	<u>\$488</u>
Total recognized in net periodic benefit cost and other comprehensive income (pre-tax)	<u><u>(\$29,938)</u></u>	<u><u>\$5,169</u></u>	<u><u>(\$31)</u></u>	<u><u>\$94</u></u>	<u><u>(\$9,747)</u></u>	<u><u>\$3,184</u></u>

Weighted Average Assumptions used for net periodic benefit cost:

Discount rate	3.70%	4.20%	1.10%	2.20%	3.40%	3.80%
Expected return on plan assets	7.50%	7.50%	4.00%	4.00%	N/A	N/A
Rate of compensation increase	3.75%	3.75%	N/A	N/A	N/A	N/A

The expected long-term rate of return is generally based on the pension plan's asset mix, assumptions of equity returns based on historical long-term returns on asset categories, expectations for inflation, and estimates of the impact of active management of the assets.

SOO's estimated net loss (gain) and prior service cost (credit) for the plans that will be amortized from accumulated other comprehensive income into net periodic benefit cost over the next fiscal year are:

	Defined Benefit Pension Plan 2014	UTU Pension Plan 2014	Postretirement Other Than Pension Benefit Plans 2014
Prior service cost (credit)	(\$320)	\$0	\$538
Net loss (gain)	<u>2,775</u>	<u>(34)</u>	<u>(31)</u>
Total	<u><u>\$2,455</u></u>	<u><u>(\$34)</u></u>	<u><u>\$507</u></u>

SOO's plan assets for the defined benefit pension plan and UTU pension plan as of December 31, 2013 were as follows:

	Defined Benefit Pension Plan		UTU Pension Plan	
	Amount	Percentage	Amount	Percentage
Cash and receivables	\$14,803	10%	\$187	18%
Fixed Income	32,854	24%	253	25%
Alternate Investment Strategies	13,389	10%	0	0%
Equities	<u>78,073</u>	<u>56%</u>	<u>592</u>	<u>57%</u>
	<u><u>\$139,119</u></u>	<u><u>100%</u></u>	<u><u>\$1,032</u></u>	<u><u>100%</u></u>

Assets are invested to balance the goals of maximizing long-term return and minimizing risk in a prudent manner. Target asset allocation on a long-term central tendency basis for the defined benefit pension plan is 50% equities and 50% fixed income. Plan assets do not include any SOO or Canadian Pacific Railway Company stock.

SOO presently estimates \$7,600 in defined benefit pension fund and \$144 in UTU pension fund contribution requirements in 2014.

200. COMPARATIVE STATEMENT OF FINANCIAL POSITION - EXPLANATORY NOTES - Continued

NOTES TO FINANCIAL STATEMENTS

10. PENSION AND OTHER EMPLOYEE BENEFITS (Continued)

The following benefit payments which reflect expected future service, as appropriate, are expected to be paid:

	Defined Benefit Pension Plan	UTU Pension Plan	Postretirement Other Than Pension Benefit Plans
2014	\$9,746	\$478	\$1,514
2015	10,001	133	1,527
2016	10,282	144	1,498
2017	10,435	16	1,469
2018	10,609	90	1,380
2019-2023	53,027	16	5,489

Assumed health care cost trends have a significant effect on the amounts reported for health care plans. The 2014 health care cost inflation rate is estimated to be 7.50% dropping to 5.00% by year 2019. A one-percentage point change in assumed health care cost trend rates would have the following effects:

	1-PERCENTAGE Point Increase	1-PERCENTAGE Point Decrease
Effect on total of service and interest cost components	\$89	(\$77)
Effect on postretirement benefit obligation	\$988	(\$872)

SOO provides a defined contribution pension plan to certain employees (please see page 9 for eligibility). The plan provides a pension based on employer contributions plus investment returns earned on those contributions. Employer contributions are a percentage of annual eligible employee compensation. In 2013 and 2012, the net cost of the plan, which generally equals the employer's required contribution was \$873 and \$794, respectively.

SOO provides defined contribution savings plans to several groups of employees. Participants may contribute certain percents of their annual compensation to the plans and SOO in some cases will also make a contribution on the participant's behalf. Participants are fully vested in SOO's contribution. The total annual expense for all such plans for 2013 and 2012 was \$1,546 and \$1,653, respectively.

SOO participates in certain stock-based compensation plans of Canadian Pacific Railway Company (CPRC). Under CPRC's stock option plan, options are granted to eligible employees of SOO to purchase common stock of CPRC at a price equal to the market value of the shares at the grant date. Options vest between 24 and 36 months after the grant date and expire ten years after the grant date. Performance Share Units (PSU) attract dividend equivalents in the form of additional units based on the dividends paid on the CPRC's common shares. PSUs vest and are settled in cash approximately three years after the grant date contingent upon CPRC's performance (performance factor). The expense related to the PSUs is accrued based on the price of Common Shares at the end of the period and the anticipated performance factor, over the vesting period. CPRC also has a Deferred Share Units (DSU) plan meant to compensate and assist key individuals in obtaining specific share ownership targets. DSU participants are entitled to receive at redemption a cash payment equivalent to the previous ten (10) day closing share price average. Vesting of DSU's can happen either immediately or over various periods of up to 36 months and are only redeemable to be exercised for one (1) year following the termination of employment. DSU participants may be granted a matching number of DSU's not to exceed one-third of the shares and DSU's acquired during the first six (6) months after becoming eligible under the plan, and thereafter, not to exceed one quarter. DSU participants have five (5) years to meet their ownership targets. Operating expenses associated with these plans were \$5,866 in 2013 and \$1,150 in 2012.

Restricted Share Units (RSU) entitle the holder to receive, upon redemption, a cash payment equivalent to the previous ten-day closing share price average. RSU's vest over various periods of up to 36 months and are redeemable immediately upon vesting. Upon termination of employment RSU's are forfeited immediately. RSU's attract dividends. Operating expense associated with this plan was \$675 in 2013 and \$571 in 2012.

ASC 718 (previously SFAS No. 123R) requires that the cost of all share-based payments to employees, including grants of employee stock options, be recognized in the financial statements based on their fair values. That cost will be recognized as an expense over the vesting period of the award. The expense recognized in accordance with ASC 718 in 2013 and 2012 was \$3,350 and \$594, respectively.

SOO also participates in CPRC's employee share purchase plan whereby both employee and SOO contributions are used to purchase CPRC shares on the open market for employees. SOO's contributions are expensed over the 15-month vesting period. Operating expense associated with the program in 2013 and 2012 was \$382 and \$378, respectively.

200. COMPARATIVE STATEMENT OF FINANCIAL POSITION - EXPLANATORY NOTES - Continued

NOTES TO FINANCIAL STATEMENTS

11. PENDING SALE TO GENESEE & WYOMING, INC.

On January 2, 2014, SOO reached agreement to sell approximately 660 miles of track to the Genesee & Wyoming Inc. ("G&W") for approximately \$215 million in gross proceeds, subject to closing adjustments. The sale includes Dakota, Minnesota and Eastern Railroad Corporation's current operations between Tracy, MN and Rapid City, SD; north of Rapid City to Colony, WY; south of Rapid City to Dakota Jct., NE; and connecting branch lines, as well as trackage from Dakota Junction to Crawford, NE currently leased to Nebraska Northwestern Railroad (NNW). The asset sale is subject to Surface Transportation Board (STB) regulatory approval, but is expected to close in mid-2014.

In compliance with US GAAP, SOO was required to classify the rail assets as assets held for sale on its balance sheet measured at their estimated fair value less estimated direct selling costs. As a result, SOO recorded an asset impairment charge and accruals for future costs associated with the sale totaling \$409 million affecting rail assets, intangible assets and goodwill. SOO petitioned the STB to allow it to apply these same rules to its R1 filing. The STB disagreed with the US GAAP accounting treatment for this R1 filing, ruling instead that SOO should maintain the classification of the assets on the balance sheet and maintain the carrying amount of these assets until consummation of the sale, with which we have complied. The following is a summary of the assets on our balance sheet at book value that are subject to this sale.

712 Inventory	\$2M
731 Gross Property	657M
735 Accumulated Depreciation	(59)M
741 Other Assets	8M

12. IMPAIRMENT OF ASSETS RELATED TO POWDER RIVER BASIN PROJECT

As part of the acquisition of DM&E in 2007, SOO acquired the option to build a 260 mile extension of its network into coal mines in the Powder River Basin ("PRB").

Due to continued deterioration in the market for domestic thermal coal, including a sharp deterioration in 2012, in the fourth quarter of 2012 SOO deferred plans to extend its rail network into the PRB coal mines indefinitely. As a result of this decision and in light of the declined market conditions, CP has evaluated the recoverability of the carrying amount of PRB assets and determined that this exceeded the estimated fair value by \$179,867. The estimated fair value represents the expected proceeds from the sale of the acquired land, as determined by a comparable market assessment. Other costs associated with the acquisition of DM&E and accumulated by SOO since acquisition have been written down to \$nil. The amount of the impairment associated with this indefinite deferral was \$179,867 (\$107,000 after-tax). The components of the PRB impairment are as follows:

DESCRIPTION	DR ACCT	CR ACCT	AMOUNT
Land	551	731	\$ 20,774
Infrastructure	61-13-99	731	133,193
Intangible Asset	61-61-99	741	25,900
			<u>\$ 179,867</u>

220. RETAINED EARNINGS

(Dollars in Thousands)

1. Show below the items of Retained Earnings Accounts of the respondent for the year, classified in accordance with the Uniform System of Accounts for Railroad Companies.
2. All contra entries hereunder should be shown in parentheses.
3. Show in lines 22 and 23 the amount of assigned Federal income tax consequences for Accounts 606 and 616.
4. Segregate in column (c) all amounts applicable to the equity in undistributed earnings (losses) of affiliated companies based on the equity method of accounting.
5. Line 3 (line 7 if debit balance), column (c), should agree with line 26, column (b), Schedule 210. The total of columns (b) and (c), lines 3 and 7, should agree with line 61, column (b), Schedule 210.
6. Include in column (b) only amounts applicable to retained earnings exclusive of any amounts included in column (c).

Line No.	Cross Check	Item (a)	Retained earnings-unappropriated (b)	Equity in undistributed earnings (losses) of affiliated companies (c)	Line No.

* ASC 715 Compensation-Retirement Benefits adjustments.

1 If any dividends have not been declared on cumulative preferred stock, give cumulative undeclared dividends at beginning of year and end of year.

230. CAPITAL STOCK

PART I. CAPITAL STOCK
(Dollars in thousands)

1. Disclose in column (a) the particulars of the various issues of capital stock of the respondent, distinguishing separate issues of any general class, if different in any respect.
2. Present in column (b) the par or stated value of each issue. If none, so state.
3. Disclose in columns (c), (d), (e) and (f) the required information concerning the number of shares authorized, issued, in treasury and outstanding for the various issues.
4. For the purposes of this report, capital stock and other securities are considered to be nominally issued when certificates are signed and sealed and placed with the proper officer for sale and delivery or are pledged or otherwise placed in some special fund of the respondent. They are considered to be actually issued when sold to a bona fide purchaser who holds them free from controls by the respondent. All securities actually issued and not reacquired by or for the respondent are considered to be actually outstanding. If reacquired by or for the respondent, and not canceled or retired, they are considered to be nominally outstanding.

Line No.	Class of Stock (a)	Par Value* (b)	Number of Shares				Book Value at End of Year		Line No.
			Authorized (c)	Issued (d)	In Treasury (e)	Outstanding (f)	Outstanding (g) \$	In Treasury (h) \$

9									9
10	TOTAL		20,000	3,623	0	3,623	153,300	0	10

* Actual par values are listed in dollars and cents.

PART II. SUMMARY OF CAPITAL STOCK CHANGES DURING YEAR
(Dollars in thousands)

1. The purpose of this part is to disclose capital stock changes during the year.
2. Column (a) presents the items to be disclosed.
3. Columns (b), (d) and (f) require disclosures of the number of preferred, common and treasury stock, respectively, applicable to the items presented in column (a).
4. Columns (c), (e) and (g) require the applicable disclosure of the book values of preferred, common and treasury stock.
5. Disclose in column (h) the additional paid-in capital realized from changes in capital stock during year.
6. Unusual circumstances arising from changes in capital stock changes shall be fully explained in footnotes to this schedule.

Line No.	Items (a)	Preferred Stock		Common Stock		Treasury Stock		Additional Capital \$ (h)	Line No.

240. STATEMENT OF CASH FLOWS
(Dollars in thousands)

Give the information as requested concerning the cash flows during the year. Either the direct or indirect method can be used. The direct method shows as its principal components operating cash receipts and payments, such as cash received from customers and cash paid to suppliers and employees, the sum of which is net cash flow from operating activities. The indirect method starts with net income and adjusts it for revenues and expense items that were not the result of operating cash transactions in the current period to reconcile it to net cash flow from operating activities. If the direct method is used, complete lines 1-41. If the indirect method is used, complete lines 10-41. Cash for the purpose of this schedule shall include cash and cash equivalents which are short-term, highly liquid investments readily convertible to known amounts of cash and so near their maturity that they present insignificant risk of changes in value because of changes in interest rates. Information about all investing and financing activities which do not directly affect cash shall be separately disclosed in footnotes to this schedule. They shall clearly relate the cash (if any) and noncash aspects of transactions. Examples of noncash investing and transactions include converting debt to equity acquiring assets by assuming directly related liabilities, such as purchasing a building by incurring a mortgage to the seller; obtaining an asset by entering into a capital lease; and exchanging noncash assets or liabilities for other noncash assets or liabilities. Some transactions are part cash and part noncash; only the cash portion shall be reported directly in the statement of cash flows. Refer to FAS Statement No. 95, Statement of Cash Flows, for further details.

Line No.	Cross Check	Description (a)	Current Year (b)	Prior Year (c)	Line No.
CASH FLOWS FROM OPERATING ACTIVITIES					
1		Cash received from operating revenues			1
2		Dividends received from affiliates			2
3		Interest received			3
4		Other income			4
5		Cash paid for operating expenses			5
6		Interest paid (net of amounts capitalized)			6

24	Cash Working Capital Allowed	Lesser line 22 and line 23	73,722	24
MATERIALS AND SUPPLIES				
25	Total Materials and Supplies (712)	Note A	29,505	25
26	Scrap and Obsolete Material included in Acct. 712	Note A	0	26
27	Materials and Supplies held for Common Carrier Purposes	Line 25 - line 26	29,505	27
28	TOTAL WORKING CAPITAL	Line 24 + line 27	103,227	28

Notes: (A) Use common carrier portion only. Common carrier refers to railway transportation service.

(B) Rent income is the sum of Schedule 410, column h, lines 121, 122, 123, 127, 128, 129, 133, 134, 135, 208, 210, 212, 227, 229, 231, 312, 314, and 316. Rent income is added to railway operating revenues to produce total revenues. Rent income is also added to total operating expenses to exclude the rent revenue items from operating expense.

(C) If result is negative, use zero.

NOTES AND REMARKS

This page intentionally left blank.

GENERAL INSTRUCTIONS CONCERNING RETURNS IN SCHEDULES 310, 310A

1. Schedule 310 should give particulars of stocks, bonds, other secured obligations, unsecured notes, and investment advances of affiliated companies held by respondent at the close of the year. Also, disclose the investments made, disposed of, and written down during the year and the applicable dividends and interest credited to income as a result of those investments. They should exclude securities issued or assumed by respondent. For definition of affiliated companies, see the rules governing Account No. 721, "Investments and Advances, Affiliated Companies", in the Uniform System of Accounts for Railroad Companies.
2. List the investments in the following order and show a total for each group and each class of investments by accounts in numerical order:
 - (A) Stocks
 - (1) Carriers-active
 - (2) Carriers-inactive
 - (3) Noncarriers-active
 - (4) Noncarriers-inactive
 - (B) Bonds (including U.S. Government bonds)
 - (C) Other secured obligations
 - (D) Unsecured notes
 - (E) Investment advances
3. The subclassification of classes (B), (C), (D) and (E) should be the same as that provided for class (A).
4. The kinds of industry represented by respondent's investments in the securities of other companies should be shown by symbol opposite the names of the issuing corporation. The symbols and industrial classification are as follows:

Symbol	Kind of Industry
I	Agriculture, forestry, and fisheries
II	Mining
III	Construction
IV	Manufacturing
V	Wholesale and retail trade
VI	Finance, insurance, and real estate
VII	Transportation, communications, and other public utilities
VIII	Services
IX	Government
X	All other
5. By carriers, as the term is used here, is meant companies owning or operating railroads, facilities auxiliary thereto such as bridges, ferries, union depots, and other terminal facilities, sleeping cars, parlor cars, dining cars, freight cars, express service and facilities, electric railways, highway motor vehicles, steamboats and other marine transportation equipment, pipe lines (other than those for transportation of water), and other instrumentalities devoted to the transportation of persons or property for hire. Telegraph and telephone companies are not meant to be included.
6. Noncarrier companies should, for the purpose of these schedules, include telephone companies, telegraph companies, mining companies, manufacturing companies, hotel companies, etc. Purely holding companies are to be classified as noncarrier companies, even though the securities held by such companies are largely or entirely issued or assumed by carriers.
7. By an active corporation is meant one which maintains an organization for operating property or administering its financial affairs. An inactive corporation is one which has been practically absorbed in a controlling corporation and which neither operates property nor administers its financial affairs. If it maintains an organization it does so only for the purpose of complying with legal requirements and maintaining title to property or franchises.
8. Combine in one account investments in which the original cost or present equity in total assets is less than \$10,000.
9. Include investments in unincorporated entities such as lessee organizations. Exclude amounts normally settled on a current basis.
10. Do not include the value of securities issued or assumed by respondent.
11. For affiliates which do not report to the Surface Transportation Board and are jointly owned, disclose in footnotes the name and extent of control of the other controlling entities.

<u>Company Name</u>	<u>Our Ownership</u>	<u>Other Joint Owners</u>
MT Properties	14.61%	BNSF - 43.30%; UP - 42.09%;
Belt Railway Company of Chicago	8.33%	CSX, NS-25% each; BNSF-16.67%; CN-16.67%; UP-8.33%.
Indiana Harbor Belt Railroad Company	49%	CSX/NS - 51%
TTX Company (Formerly Trailer Train)	1.60%	Various others
Transportation and Railroad Assurance Company, Ltd.	13.41%	Various others
Amtrak	N/A	Various others
Albany Port Railroad Corporation	50%	CSX - 50%
Soo Green Renewable Rail LLC	50%	TWTP, LLC - 50%
Kansas City Terminal Railway Company	8.33%	UP - 41.67%, BNSF - 25%, KCS - 16.67%, NS - 8.33%
NY Business Development Corporation	-	Various others
Bright Rail Energy LLC	14.270%	Various others
PTC-220 LLC	14.286%	UP, BNSF, CSX, NS, CN, KCS 14.286% each

310. INVESTMENTS AND ADVANCES AFFILIATED COMPANIES

1. Give particulars of investments in stocks, bonds, other secured obligations, unsecured notes, and investment advances of companies affiliated with respondent, from accounts 715 (Sinking Funds), 716 (Capital Funds), 721 (Investments and Advances Affiliated Companies), and 717 (Other Funds).
2. Entries in this schedule should be made in accordance with the definitions and general instructions given on Page 25, classifying the investments by means of letters, figures, and symbols in columns (a), (b), and (c).
3. Indicate by means of an arbitrary mark in column (d) the obligation in support of which any security is pledged, mortgaged, or otherwise encumbered. Give names and other important particulars of such obligations in footnotes.
4. Give totals for each class and for each subclass and a grand total for each account.
5. Entries in column (d) should show date of maturity of bonds and other evidences of indebtedness. In case obligations of the same designation mature serially, the date in column (d) may be reported as "Serially to ". Abbreviations in common use in standard financial publications may be used to conserve space.

(Dollars in thousands)

6. If any of the companies included in this schedule are controlled by respondent, the percent of control should be shown in column (e). In case any company listed is controlled other than through actual ownership of securities, give particulars in a footnote. In case of joint control, give names of other parties and particulars of control.
7. If any advances reported are pledged, give particulars in a footnote.
8. Investments in companies in which neither the original cost or present equity in total assets are less than \$10,000 may be combined in one figure.
9. Also include investments in unincorporated entities such as lessee organizations (exclusive of amounts nominally settled on a current basis).
10. This schedule should not include securities issued or assumed by respondent.
11. For affiliates which do not report to the Surface Transportation Board and are jointly owned, give names and extent of control by other entities by footnotes.

310A. INVESTMENTS IN COMMON STOCKS OF AFFILIATED COMPANIES

(Dollars in thousands)

Undistributed Earnings from Certain Investments in Affiliated Companies

1. Report below the details of all investments in common stocks included in Account 721, Investments and Advances Affiliated Companies.
2. Enter in column (c) the amount necessary to retroactively adjust those investments. (See instruction 5-2, Uniform System of Accounts.)
3. Enter in column (d) the share of undistributed earnings (i.e., less dividends) or losses.
4. Enter in column (e) the amortization for the year of the excess of cost over equity in net assets (equity over cost) at date of acquisition.
5. For definition of "carrier" and "noncarrier", see general instructions.

INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 330

1. Give particulars of balances at the beginning and close of the year and of all changes during the year in Account No. 731, "Road and Equipment Property", and Account No. 732, "Improvements on Leased Property", classified by primary accounts in accordance with the Uniform System of Accounts for Railroad Companies. The balances, by primary accounts, should insofar as known, be stated in column (b) and all changes made during the year should be analyzed in columns (c) to (f), inclusive. Column (g) should be the net of the amounts in columns (c) through (f). Column (h) is the aggregate of columns (b) through (f), inclusive. Grand totals of columns (b) and (h) should equal the sum of Accounts 731 and 732 for the respective periods; if not, a full explanation should be made in a footnote.
2. In column (c), show disbursements made for the specific purpose of purchasing, constructing, and equipping new lines, and for the extension of old lines, as provided for in Instruction 2-1, "Items to be charged", in the Uniform System of Accounts for Railroad Companies for such items.
3. In column (d), show the cost of a railway or portion thereof, acquired as an operating entity or system by purchase, merger, consolidation, reorganization, receivership sale or transfer, or otherwise.
4. Columns (c) and (e) should include all entries covering expenditures for additions and betterments, as defined, whether or not replacing other property.
5. All credits representing property sold, abandoned, or otherwise retires should be shown in column (f).
6. Both the debit and credit involved in each transfer, adjustment, or clearance, between road and equipment accounts, should be included in the column in which the item was initially included. Also the transfer of prior years' debits or credits from investment in road and equipment to operating expenses or other accounts, or vice versa, should be included in the column applicable to current items of like nature. Each such transfer, adjustment, or clearance should be fully explained when in excess of \$100,000.
7. If during the year an individual charge of \$100,000 or more was made to Account No. 2, "Land for Transportation Purposes", state the cost, location, area, and other details which will identify the property in a footnote.
8. Report on line 29, amounts not included in the primary road accounts. The items reported should be briefly identified and explained under "Notes and Remarks" below. Amounts should be reported on this line only under special circumstances, usually after permission is obtained from the Board for exceptions to prescribed accounting. Reference to such authority should be made when explaining the amounts reported. Respondents must not make arbitrary changes to the printed stub or column headings without specific authority from the Board.
9. If during the year a segment of transportation property was acquired, state in a footnote the name of the vendor, the mileage acquired, and the date of acquisition, giving location and cost of the property to the respondent. Also furnish a statement of the amount included in each primary account representing such property acquired, referring to the column or columns in which the entries appear.
10. If an amount of less than \$5,000 is used as the minimum for additions and betterments to property investment accounts as provided for in Instruction 2-2 of the Uniform System of Accounts for Railroad Companies, state the amount used in a footnote.

332. DEPRECIATION BASE AND RATES - ROAD AND EQUIPMENT
OWNED AND USED AND LEASED FROM OTHERS
(Dollars in thousands)

1. Show in columns (b) and (e), for each primary account, the depreciation base used to compute depreciation charges for the month of January, and in columns (c) and (f), the depreciation charges for the month of December. In columns (d) and (g) show the composite rates used in computing depreciation charges for December, and on lines 30 and 39 of these columns show the composite percentage for all road and equipment accounts, respectively, ascertained by applying the primary account composite rates to the depreciation base used in computing the charges for December, and dividing that total by the total depreciation base for the same month. The depreciation base should not include the cost of equipment used, but not owned, when the rents are included in rent for equipment and Account Nos. 31-22-00, 31-23-00, 31-25-00, 31-21-00, 35-21-00, 35-23-00, 35-22-00, and 35-25-00. It should include cost of equipment owned and leased to others when the rents therefrom are included in the rent for equipment Accounts Nos. 32-21-00, 32-22-00, 32-23-00, 32-25-00, 36-21-00, 36-22-00, 36-23-00, and 36-25-00, inclusive. Composite rates used should be those prescribed or authorized by the Board, except that where the use of component rates has been authorized, the composite rates to be shown for the respective primary accounts should be recomputed from the December charges developed by the use of the authorized rates. If any changes in rates were effective during the year, give particulars in a footnote.

2. All leased properties may be combined and one composite rate computed for each primary account, or a separate schedule may be included for each such property.

3. Show in columns (e), (f) and (g) data applicable to Lessor property, when the rent therefore is included in Account Nos. 31-11-00, 31-12-00, 31-13-00, 31-21-00, 31-22-00, and 31-23-00, inclusive.

4. If depreciation accruals have been discontinued for any account, the depreciation base should be reported, nevertheless, in support of depreciation reserves. Authority for the discontinuance of accruals should be shown in a footnote indicating the effected account(s).

5. Disclosures in the respective sections of this schedule may be omitted if either total road leased from others or total equipment leased from others represents less than 5% of total road owned or total equipment owned, respectively.

335. ACCUMULATED DEPRECIATION- ROAD AND EQUIPMENT OWNED AND USED
(Dollars in Thousand)

1. Disclose the required information in regard to credits and debits to Account No. 735, "Accumulated Depreciation: Road and Equipment Property", during the year relating to owned and used road equipment. Include entries for depreciation of equipment owned but not used when the resulting rents are included in the "Lease Rentals-Credit-Equipment" accounts and "Other Rents-Credit-Equipment" accounts. Exclude any entries of depreciation of equipment that is used but not owned when the resulting rents are included in "Lease Rental- Debit-Equipment" account and "other Rents-Debit-Equipment" accounts. (See Schedule 351 for the accumulated depreciation to road and equipment owned and leased to others.)

2. If any data are included in columns (d) or (f), explain the entries in detail.

3. A debit balance in columns (b) or (g) for any primary account should be designated "Dr."

4. If there is any inconsistency between the credits to the reserve as shown in column (c) and the charges to operating expenses, a full explanation should be given.

5. Enter amounts representing amortization under an authorized program other than for defense projects on lines 29 and 39.

@ Capitalized Roadway Machine depreciation.

Note 1 - Included in line 29 col G are unamortized amounts for the following selected accounts: Grading (402), Ties 2,640, Rail and OTM 25,736 and Ballast 8,125. Columns D & F represents the change in the reserve imbalance in accounts from an updated depreciation study.

339. ACCRUED LIABILITY - LEASED PROPERTY
(Dollars in thousands)

1. Disclose the required information relating to credits and debits of Account 772, "Accrued Liability Leased Property", during the year concerning road and equipment leased from others.
2. In column (c), enter amounts charged to operating expenses; in column (e), enter debits to account arising from retirements; in column (f), enter amounts paid to lessor.
3. Any inconsistencies between credits to account, charges to operating expenses and payments to lessors should be fully explained.
4. Required disclosure may be omitted if leased road and equipment property represents 5% or less of total property owned and used.
5. If settlement for depreciation is made currently between lessee and lessor, and no debits or credits to Account 772 are made by the accounting company, show in column (c) the charges to operating expenses, and in column (f) show payments made to the lessor in settlement thereof.

340. DEPRECIATION BASE AND RATES-IMPROVEMENTS TO ROAD AND EQUIPMENT LEASED FROM OTHERS
(Dollars in thousands)

1. Show in column (b) for each primary account the depreciation base used in computing the depreciation charges for the month of January, and in column (c) show the depreciation base used in computing the depreciation charges for the month of December, in column (d) show the composite rates used to compute the depreciation charges for December, and on lines 30 and 40 of these columns show the composite percentage of all road and equipment accounts, respectively, ascertained by applying the primary account composite rates to the depreciation base used in computing the charges for December and dividing the total so computed by the total depreciation base for the same month. This schedule should include only improvements to leased property charged to account 732, "Improvements on Leased Property". The composite rates used should be those prescribed or otherwise authorized by the Board, except that where the use of component rates has been authorized, the composite rates to be shown for the respective primary accounts should be recomputed from the December charges developed by the use of the authorized rates. If any changes in rates were effective during the year, give full particulars in a footnote.

2. All improvements to leased property may be combined and one composite rate computed for each primary account, or a separate schedule may be included for each such property.

3. If depreciation accruals have been discontinued for any account, the depreciation base should be reported, nevertheless, in support of depreciation reserves. Authority for the discontinuance of accruals should be shown in a footnote indicating the effected account(s).

4. Disclosures in the respective sections of this schedule may be omitted if either total road leased from others or total equipment leased from others represents less than 5% of the total road owned or total equipment owned, respectively. However, line 41, Grand Total, should be completed.

342. ACCUMULATED DEPRECIATION - IMPROVEMENTS TO ROAD AND EQUIPMENT LEASED FROM OTHERS
(Dollars in thousands)

1. Enter the required information concerning debits and credits to account 733, "Accumulated Depreciation-Improvements on Leased Property", during the year relating to improvements made to road and equipment property leased from others, the depreciation charges for which are included in operating expenses of the respondent.

2. If any entries are made for column (d) "Other credits" or column (f) "Other debits", state the facts occasioning such entries on page 39. A debit balance in column (b) or (g) for any primary account should be shown in parenthesis or designated "Dr".

3. Any inconsistency between the credits to the reserve as shown in column (c) and the charges to operating expenses should be fully explained on page 39.

4. Show in column (e) the debits to the reserve arising from retirements. These debits should not exceed investment, etc.

5. Disclosures in the respective sections of this schedule may be omitted if either total road leased from others or total equipment leased from others represents less than 5% of total road owned or total equipment owned, respectively. However, line 39 Grand Total, should be completed.

NOTES AND REMARKS FOR SCHEDULE 342

This page intentionally left blank.

350. DEPRECIATION BASE AND RATES-ROAD AND EQUIPMENT LEASED TO OTHERS
(Dollars in thousands)

1. This schedule is to be used in cases where the related depreciation reserve is carried in the accounts of the respondent and the rent therefrom is included in Accounts 32-11-00, 32-12-00, 32-13-00, 32-21-00, 32-22-00 and 32-23-00.

2. Show in columns (b) and (c), for each primary account, the depreciation base used in computing the depreciation for the months of January and December, respectively, with respect to road and equipment owned by the respondent but leased to others, the depreciation charges for which are not includible in operating expenses of the respondent, but for which the depreciation reserve is recorded in the accounts of the respondent. If the base for road is other than the original cost or estimated original cost as found by the Board's Office of Economic and Environmental Analysis, brought to a current date by the respondent from its Order No. 3 records and accounts, or is other than ledger value for equipment, a full explanation should be given.

3. In column (d) show the composite rates used to compute the depreciation for December and on lines 29 and 38 of this column show the composite percentage for all road and equipment accounts, respectively, ascertained by applying the primary accounts composite rates to the depreciation base used to compute the depreciation for December and dividing the total also computed by the depreciation base.

4. If depreciation accruals have been discontinued for any account, the depreciation base should be reported, nevertheless, in support of depreciation reserves. Authority for the discontinuance of accruals should be shown in a footnote indicating the account(s) affected.

5. Disclosures in the respective sections of this schedule may be omitted if either total road leased to others or total equipment leased to others represents less than 5% of total road owned or total equipment owned, respectively. However, line 39, grand Total, should be completed.

Column D: Adjusted for allocation of unallocated accumulated depreciation

352A. INVESTMENT IN RAILROAD PROPERTY USED IN TRANSPORTATION SERVICE (By Company)
(Dollars in Thousands)

1. Disclose the investment in railway property used in transportation service at the close of the year. This investment represents the aggregate of the property owned or leased by respondent and used in respondent's transportation service. Such property includes (a) investment reported in Accounts 731, "Road and Equipment Property", and 732, "Improvements on leased property", of respondent, less any 731 or 732 property leased to others for their exclusive use of road, track, or bridges (including equipment or other railway property covered by the contract). Equipment leased to others under separate distinct contracts shall not be deducted from respondent's 731 or 732 property, and (b) the investment of other companies' 731 or 732 property (including operating and lessor railroads) used by respondent when the lease is for exclusive use or control of roads, tracks, or bridges (including equipment of other railway property covered by the contract). This excludes leased equipment from operating railroads under separate distinct contracts and the investment of other carriers in property jointly used by respondent.

2. In column (a), classify each company in this schedule as: "R" for respondent, "L" for lessor railroad, "P" for inactive or proprietary company, and "O" for other leased properties.

3. In columns (a) to (e), inclusive, first show the data requested for the respondent (R); next the data for companies whose entire properties are used in transportation service of the respondent, divided between lessor (L) and proprietary (P) companies; followed by data for carriers and others (O), portions of whose property are used in transportation service of the respondent. Show a total for each class of company in column (d) and (e). Then show as deductions, data for transportation property leased to carriers and others.

4. In column (c), line-haul carriers report the miles of road used in line-haul service. Report miles in whole numbers.

5. In column (d), show the amount applicable in Accounts 731 and 732 on the books of the companies whose names appear in column (b). Values of property of other carriers segregated by estimate or otherwise should correspond in amount to deductions made by the owners in their reports. If separate value is not available, an explanation should be provided. Differences between amounts shown in column (d) of this schedule and column (c), line 24, on the asset side of the general balance sheet of each individual railway should be explained in a footnote. Book values included in Accounts 731 and 732 of the owner should be reported in column (d) in reference to the investment of the respondent in the securities of the owner unless a good reason can be given for the contrary. Methods of estimating (by capitalizing rentals at 6 percent or otherwise) value of property of private owners, or portions of property of other carriers, should be explained.

6. In column (e), show the amount of depreciation and amortization accrued as of the close of the year in Accounts 733, 734, 735, 736, and 772, that is applicable to the property of the carriers whose names are listed in column (b), regardless of where the reserves therefor are recorded.

Line No.	Class (See ins. 2) (a)	Name of company (b)	Miles of road (see ins. 4) (whole number) (c)	Investments in property (see ins. 5) (d)	Depreciation & amortization of defense projects (see ins. 6) (e)	Line No.

352B. INVESTMENT IN RAILWAY PROPERTY USED IN TRANSPORTATION SERVICE

(By Property Accounts)

(Dollars in thousands)

1. In columns (b) through (e) give, by primary accounts, the amount of investment at the close of the year in property of respondent and each group or class of companies and properties.

2. The amounts for respondent and for each group or class of companies and properties on line 44 herein, should correspond with the amounts for each class of company and property shown in schedule 352A. Continuing records shall be maintained by respondent of the primary property accounts separately for each company or property included in the schedule.

3. Report on line 29 amounts representing capitalization of rentals for leased property based on 6 percent per year where property is not classified by accounts by non-carrier owners, or where cost of property leased from other carriers is not ascertainable. Identify non-carrier owners, and briefly explain on page 39 methods of estimating value of property of non-carriers or property of other carriers.

4. Report on line 30 amounts not includible in the accounts shown, or on line 29. The items included should be briefly identified and explained. Also include here those items after permission is obtained from the Board for exceptions to prescribed accounting. Reference to such authority should be made when explaining the amounts reported. Respondents must not make arbitrary changes to the printed stub or column headings without specific authority from the Board.

412. WAY AND STRUCTURES
(Dollars in thousands)

1. Report freight expenses only.
2. The total depreciation expense reported in column (b), line 29, should balance to the sum of the depreciation expense reported in schedule 410, column (f) lines, 136, 137 and 138.
3. Report in column (c) the lease/rentals for the various property categories of Way and Structures. The total net lease/rentals reported in column (c), line 29, should balance the net amount reported in schedule 410, column (f), lines 118 through 123, plus lines 130 through 135.
If an entire road or segment of track is leased and if the actual breakdown of lease/rentals by property category is not known, apportion the lease/rentals based on the percentage of the categories' depreciation bases for all categories of depreciable leased property. Use schedule 352B of this report to obtain the depreciation bases of the categories of leased property.
4. Amortization adjustment of each road property type which is included in column (b) shall be repeated in column (d) as a debit or credit to the appropriate line item. The net adjustment on line 29 shall equal the adjustment reported on line 29 of schedule 335.
5. Report on line 28, all other lease rentals not apportioned in any category listed on lines 1 through 27.
6. Line 11, Account 16, should not include computer and data processing equipment reported on line 37 of schedule 415.

414. RENTS FOR INTERCHANGED FREIGHT TRAIN CARS AND OTHER FREIGHT-CARRYING EQUIPMENT
(Dollars in thousands)

1. Report freight expenses only.
 2. Report in this supporting schedule rental information by car type and other freight-carrying equipment relating to the interchange of railroad owned or leased equipment and privately owned equipment. (Reporting for leased equipment covers equipment that carrier on railroad markings).
 3. The gross amounts receivable and payable for freight-train cars (line 19, columns (b) through (d), and line 19, columns (e) through (g), respectively should balance with Schedule 410, column (f), lines 231 (credits) and 230 (debits). Trailer and container rentals in this schedule are included in Schedule 410, column (f), lines 315 and 316. However, the trailer and container rentals in this schedule will not balance to lines 315 and 316 of schedule 410 because those lines include rents for "Other Equipment" which is reported in Schedule 415, column (f). The balancing of schedule 410, 414 and 415 "Other Equipment" is outlined in note 6 to Schedule 415.
 4. Report in columns (b) and (e) rentals for private-line cars (whether under railroad control or not) and shipper-owned cars.
 5. Report in columns (c), (d), (f) and (g) rentals for railroad owned cars prescribed by the Board in EX Parte no. 334, for which rentals are settled on a combination mileage and time basis (basic per diem). Include railroad owned per diem tank cars on line 17.
- NOTES: Mechanical designations for each car type are shown in Schedule 710.

NOTES AND REMARKS

This page intentionally left blank.

GENERAL INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 415

1. Report freight expenses only.
2. Report by type of equipment all natural expenses relating to the equipment functions (salaries and wages, materials, tools, supplies, fuels and lubricants, purchased services and general).
3. Report in column (b) net repair expense, excluding the cost to repair damaged equipment.

Schedule 415, column (b), will balance to Schedule 410, column (f), as follows:

- (a) Locomotives, line 5 plus line 38, compared to the sum of Schedule 410, lines 202,203 plus 216 (excluding wreck repairs). Do not report in schedule 415, Equipment Damaged from Schedule 410, line 204.
- (b) Freight Cars, line 24 plus line 39, compared to the sum of Schedule 410, lines 221, 222 plus 235 (excluding wreck repairs). Do not report in Schedule 415, Equipment Damaged from Schedule 410, line 223.
- (c) Sum of highway equipment (line 32), floating equipment (line 35), passenger and other revenue equipment (line 36), computer and data processing equipment (line 37), machinery-other equipment (line 40), and work and other non-revenue equipment (line 41) compared to Schedule 410, the sum of lines 302 through 307, plus line 320 (excluding wreck repairs). Do not report in Schedule 415, equipment damaged from Schedule 410, line 308.

Note: Lines 216, 235 and 320 of Schedule 410 are credit amounts.

The allocation of freight car repair expenses reportable on Schedule 415 by car types shall be in accordance with Instruction 2-21, Freight train repair costing, 49 CFR 1201.

4. Depreciation expense for each class of equipment by car type shall be reported in columns (c) and (d). For improvements on leased property, Accounts 732 and 733, use a supplementary Schedule 415, which will relate to Schedules 340 and 342.

Depreciation charges reported on columns (c) and (d) will balance to Schedule 410, column (f), as follows:

- (a) Locomotives, line 5 and 38, compared to Schedule 410, line 213.
- (b) Freight Cars, line 24 and 39, compared to schedule 410, line 232.
- (c) Sum of highway equipment (line 32), floating equipment (line 35), passenger and other revenue equipment (line 36), computer and data processing equipment (line 37), machinery-other equipment (line 40), and work and other non-revenue equipment (line 41), compared to Schedule 410, line 317.

5. Amortization adjustment of each equipment type which is included in column (c) shall be reported in column (e) as a debit or credit to the appropriate line item. The net adjustment on line 43 shall equal the equipment amortization adjustment applicable to equipment used in freight service included in line 39, column (c), of Schedule 335.

6. Lease/rentals reported in column (f) should balance to column (f) of Schedule 410 as follows:

- (a) Locomotives, line 5 and 38, compared with Schedule 410, lines 207, 208, 211 and 212.
- (b) Freight cars, line 24 and 39, compared with Schedule 410, lines 226 plus 227 (note that Schedule 410, lines 230 and 231, are reported in Schedule 414 and are not to be included in Schedule 415).
- (c) Sum of Lease/rentals for all other equipment, lines 32, 35, 36, 37, 40 and 41, will balance to Schedule 410, lines 311, 312, 315 and 316, except for the interchange rental on trailers and containers which is reported in Schedule 414. Therefore, both Schedules 414 and 415 should be used when balancing lease/rentals other equipment to Schedule 410. Do not report in Schedule 415 the trailer and container rentals reported in Schedule 414.

7. Investment base by types of equipment shall be reported in columns (g) and (h) and should not include the cost of equipment used but not owned when the rents therefore are included in the rent for equipment and Account Nos. 31-21-00, 31-22-00, 31-23-00, 35-21-00, 35-22-00 and 35-23-00. It should include the cost of equipment owned and leased to others when the rents are included in the rent for Equipment Account Nos. 32-21-00, 32-22-00, 32-23-00, 36-21-00, 36-22-00, and 36-23-00.

Property used but not owned should also be included when the rent is included in Account Nos. 31-12-00, 31-13-00, 31-21-00, 31-22-00 and 31-23-00, inclusive.

The grand total of each equipment account in column (h) of Schedule 330 should equal the totals of line items constituting the equipment account totals of columns (g) and (h), of Schedule 415.

8. Accumulated depreciation for each class of equipment shall be reported in columns (i) and (j). The grand total of each equipment reserve account in column (g), Schedule 335, shall equal the combined aggregate total accumulated depreciation for line items constituting the corresponding equipment accounts reported in columns (i) and (j), on Schedule 415.

- 1 The data to be reported on lines 38, 39 and 40 in columns (g) and (h) is the investment recorded in Property Account 44, allocated to Locomotives, Freight Cars, and Other Equipment.
- 2 The depreciation to be reported on lines 38, 39 and 40 in column (c) is calculated by multiplying the investment in each element by the effective composite rate for Property Account 44, and then adding or subtracting the adjustment reported in column (e). This calculation should equal the amount shown in column (c), Schedule 335.

Columns (d) + (g) + (k) = Column (m).

(2) The base grand total for owned and used, improvements to leased property and capitalized leases should equal the sum of Accounts 3, 8, 9, and 11 shown at year end on Schedule 330.

NOTES AND REMARKS

This page intentionally left blank.

417. SPECIALIZED SERVICE SUBSCHEDULE - TRANSPORTATION
(Dollars in thousands)

1. Report freight expenses only.
2. Report in lines 1, 2, 3, 4 and 10 the total of those natural expenses (salaries and wages, material, tools, supplies, fuels and lubricants, purchased services and general) incurred in the operation of each type of specialized service facility. This schedule does not include switching services performed by train and yard crews in connection with or within specialized service facilities.
3. When necessary to apportion expenses, such as administrative expenses to two or more services, they shall be apportioned on the most equitable basis available to the respondent and only to the services they support. The total expenses in column (j) should balance with the respective line items in Schedule 410. Railway Operating Expenses.
4. Report in column (b), line 2, the expenses incurred in highway movements of trailers and containers performed at the expense of the reporting railroad within a terminal area for the purpose of pick-up, delivery or highway interchange service. Report in column (b), line 3, the expenses incurred in operating facilities for handling trailers and/or containers, including storage expenses. See schedule 755, note R.
5. The operation of floating equipment in line-haul service (between distinct terminals) should be reported in column (c) on line 2. Floating operations conducted within a general terminal or harbor area should be reported in column (c), line 3.
6. Report in column (g), line 3, the expenses incurred by the railroad in loading and unloading automobiles, trucks, etc., to and from bi-level and tri-level auto rack cars. Report on line 2, column (g), the expense incurred by the railroad in moving automobiles, etc., between bi-level and tri-level loading and unloading facilities over the highway to shippers, receivers or connecting carriers. Report in column (f) operating expenses for land facilities in support of floating operations, including the operation of docks and wharves.
7. Report on line 4, column (b), the expenses related to heating and refrigeration of TOFC/COFC trailers and containers (total debits and credits). The expenses on line 4, column (h), relate to refrigerator cars only.
8. Report in column (i) total expenses incurred in performing rail substitute service, other highway revenue service, LCL terminal operations, warehouse operations, freight car transloading, grain elevator terminal operations and livestock feeding operations only.

Line No.	Cross Check	Items (a)	TOFC/COFC terminal (b)	Floating equipment (c)	Coal marine terminal (d)	Ore marine terminal (e)	Other marine terminal (f)	Motor vehicle load and distribution (g)	Protective services refrigerator car (h)	Other special services (i)	Total columns (b - i) (j)	Line No.

Schedule 418

Instruction:
 This schedule will show the investment in capitalized leases in road and equipment by primary account.

Column

- (a) = primary account number and title for which capital lease amounts are included therein.
- (b) = the total investment in that primary account.
- (c) = the investment in capital leases at the end of the year.
- (d) = the current year amortization.
- (e) = the accumulated amortization relating to the leased properties.

418. SUPPORTING SCHEDULE - CAPITAL LEASES
 (Dollars in Thousands)

450. ANALYSIS OF TAXES
(Dollars in thousands)

A. Railway Taxes

Line No.	Cross-Checked	Kind of Tax (a)	Amount (b)	Line No.
1		Other than U.S. Government Taxes	48,488	1
		U.S. Government Taxes		
		Income Taxes:		
2		Normal Tax & Surtax	20,140	2
3		Excess Profits	0	3
4	*	Total Income Taxes (ln. 2 + 3)	20,140	4
5		Railroad Retirement	50,028	5
6		Hospital Insurance	4,504	6
7		Supplemental Annuities	0	7
8		Unemployment Insurance	400	8
9		All Other United States Taxes	167	9
10		Total - U.S. Government Taxes	75,239	10
11		Total Railway Taxes	123,727	11

B. Adjustments to Federal Income Taxes

1. In column (a) are listed the particulars which most often cause a differential between taxable income and pretax accounting income. Other particulars which cause such a differential should be listed under the caption Other (Specify), including State and other taxes deferred if computed separately. Minor items, each less than \$100,000, may be combined in a single entry under Other (Specify).
2. Indicate in column (b) the beginning of the year total of Accounts 714, 744, 762 and 786 applicable to each particular item in column (a).
3. Indicate in column (c) the net change in Accounts 714, 744, 762 and 786 for the net tax effect of timing differences originating and reversing in the current accounting period.
4. Indicate in column (d) any adjustments, as appropriate, including adjustments to eliminate or reinstate deferred tax effects (credits or debits) due to applying or recognizing a loss carry-forward or loss carry-back.
5. The total of line 19 in columns (c) and (d) should agree with the total of the contra charges (credits) to Account 557, Provision for Deferred Taxes, and Account 591, Provision for Deferred Taxes - Extraordinary Items, for the current year.
6. Indicate in column (e) the cumulative total of columns (b), (c) and (d). The total of column (e) must agree with the total of Accounts 714, 744, 762 and 786.

450. ANALYSIS OF TAXES - Continued
(Dollars in thousands)

***Footnotes:**

1. If Flow-through method was elected, indicate net decrease (or increase) in tax accrual because of investment tax credit	\$ <u> N/A </u>
If deferral method for investment tax credit was elected:	
(1) Indicate amount of credit utilized as a reduction of tax liability for current year	\$ <u> N/A </u>
(2) Deduct amount of current year's credit applied to a reduction of tax liability but deferred for accounting purposes	\$ <u> N/A </u>
(3) Balance of current year's credit used to reduce current year's tax accrual	\$ <u> N/A </u>
(4) Add amount of prior year's deferred credits being amortized to reduce current year's tax accrual	\$ <u> N/A </u>
(5) Total decrease in current year's tax accrual resulting from use of investment tax credits	\$ <u> N/A </u>
2. Estimated amount of future earnings which can be realized before paying Federal income taxes because of unused and available net operating loss carryover on January 1 of the year following that for which the report is made	\$ <u> 0 </u>

SOO files income tax returns in the U.S. federal jurisdiction and various U.S. state jurisdictions. SOO is no longer subject to federal income tax examinations by the Internal Revenue Service for years prior to 2007. Unrecognized tax benefits are not expected to significantly increase or decrease within the next 12 months. SOO is no longer subject to state income tax examinations by tax authorities for years before 2007.

A reconciliation of the beginning and ending amount of FIN48 liability is as follows:

	<u>2013</u>	<u>2012</u>
Balance at beginning of year	\$3,746	\$3,506
Additions based on tax positions related to the current year	478	386
Additions for tax positions of prior years	881	113
Reductions for tax positions of prior years	(368)	(259)
Reductions for tax positions due to statute of limitations	<u>0</u>	<u>0</u>
Balance at end of the year	<u><u>\$4,737</u></u>	<u><u>\$3,746</u></u>

Included in the SOO balance at December 31, 2013 is \$3.7 million (2012, \$2.8 million) of tax positions that would not affect the annual effective tax rate.

SOO recognizes both penalties and interest accrued related to unrecognized tax benefits in SOO's provision for income taxes. SOO had approximately \$2.1 million (12/31/2012 \$0.9 million) for the payment of interest and penalties accrued at December 31, 2013.

The computation of deferred taxes under ASC 740 (previously FAS 109) provides for the inclusion of judgments about future taxable income, other than temporary item reversals, in the determination of the valuation allowance required.

As of December 31, 2013, SOO had federal and state minimum tax credit carryforwards in the amount of \$23.5 million. These credits are available to be carried forward indefinitely without expiration. During 2013, \$0.1 million of ATM credits were generated and no minimum tax credits that were anticipated to be used in 2013 were carried forward.

460. ITEMS IN SELECTED INCOME AND RETAINED EARNINGS ACCOUNTS FOR THE YEAR
(Dollars in thousands)

Give a brief description for all items, regardless of amount, included during the year in Accounts 555, Unusual or Infrequent Items; 560, Income or Loss From Operations of Discontinued Segments; 562, Gain or Loss on Disposal of Discontinued Segments; 570, Extraordinary Items; 590, Income Taxes on Extraordinary Items; 592, Cumulative Effect of Changes in Accounting Principles; 603, Appropriations Released; 606, Other Credits to Retained Earnings; 616, Other Debits to Retained Earnings; 620, Appropriations for Sinking Funds; 621, Appropriations for Other Purposes. If appropriations released reflect appropriations provided during the year, each account should not be reported.

For Accounts 519, Miscellaneous Income, and 551, Miscellaneous Income Charges, if the total in either account exceeds 10% of net income before extraordinary items, describe the three largest items in the account and any other items in excess of 10% of net income.

MEMORANDA RELATING TO SELECTED INCOME AND RETAINED EARNINGS ACCOUNTS

501. GUARANTIES AND SURETYSHIPS
(Dollars in thousands)

1. If the respondent was under obligation as guarantor or surety for the performance by any other corporation or other association of any agreement or obligation, show the particulars of each contract of guaranty or suretyship in effect at the close of the year or entered into and expired during the year.

This inquiry does not cover the case of ordinary commercial paper maturing on demand or not later than two years after the date of issue. Items of less than \$50,000 may be shown as one total.

502. COMPENSATING BALANCES AND SHORT-TERM BORROWING ARRANGEMENTS

(Dollars in thousands)

Using the following notes as a guideline, show the requirements compensating balances and short-term borrowing agreements. Footnote disclosure is required even though the arrangement is not reduced to writing.

1. Disclose compensating balances not legally restricted, lines of credit used and unused, average interest rate of short-term borrowings that are outstanding at balance sheet date, maximum amount of outstanding borrowings during the period and the weighted average rate of those borrowings.

2. Time deposits and certificates of deposit constituting compensating balances not legally restricted should be disclosed.

3. Compensating balance arrangements need only be disclosed for the latest fiscal year.

4. Compensating balances included in Account 703, Special Deposits and in Account 717, Other Funds, should also be separately disclosed below.

5. Compensating balance arrangements are sufficiently material to require disclosure in footnotes when the aggregate of written and oral agreement balances amount to 15% or more of liquid assets (current cash balances, restricted and unrestricted plus marketable securities).

6. When a carrier is not in compliance with a compensating balance requirement, that fact should be disclosed, along with stated and possible sanctions, whenever such possible sanctions may be immediate (not vague or unpredictable) and material.

SOO has an uncommitted line of credit for short-term loans not to exceed \$15.0 million, under which no amounts were outstanding at December 31, 2013.

NOTES AND REMARKS

This page intentionally left blank.

SCHEDULE 510 SEPARATION OF DEBTHOLDINGS BETWEEN ROAD PROPERTY AND EQUIPMENT
(Dollars in thousands)

The principal use of this schedule is to determine the average rate of debt capital.

I. Debt Outstanding at End of Year:

Line #	Account No.	Title	Source	Balance at Close of year
1	751	Loans and Notes Payable	Sch. 200, L. 30	0
2	764	Equipment Obligations and Other Long Term Debt due Within One Year	Sch. 200, L. 39	8,923
3	765 / 767	Funded Debt Unmatured	Sch. 200, L. 41	1,429
4	766	Equipment Obligations	Sch. 200, L. 42	83,104
5	766.5	Capitalized Lease Obligations	Sch. 200, L. 43	2,538
6	768	Debt in Default	Sch. 200, L. 44	0
7	769	Accounts Payable: Affiliated Companies	Sch. 200, L. 45	1,298,827
8	770.1 / 770.2	Unamortized Debt Premium	Sch. 200, L. 46	0
9		Total Debt	Sum L. 1-8	1,394,821
10		Debt Directly Related to Road Property	Note 1.	2,455
11		Debt Directly Related to Equipment	Note 1.	93,539
12		Total Debt Directly Related to Road and Equipment	Sum L. 10 and 11	95,994
13		Percent Directly Related to Road	L.10/L.12 (2 decimals)	2.56%
14		Percent Directly Related to Equipment	L.11/L.12 (2 decimals)	97.44%
15		Debt Not Directly Related to Road or Equipment	L.9 minus L.12	1,298,827
16		Road Property Debt (Note 2)	(L.13 x L.15) plus L.10	35,705
17		Equipment Debt (Note 2)	(L.14 x L.15) plus L.11	1,359,116

II. Interest Accrued During Year:

Line #	Account No.	Title	Source	Balance at Close of year
18	546-548	Total Interest and Amortization (Fixed Charges)	Sch. 210, L. 42	97,813
19	546	Contingent Interest On Funded Debt	Sch. 210, L. 44	0
20	517	Release of Premiums on Funded Debt	Sch. 210, L. 22	0
21		Total Interest (Note 3)	Sum of Lines 18+19 less 20	97,813
22		Interest Directly Related to Road Property Debt	Note 4.	110
23		Interest Directly Related to Equipment Debt	Note 4.	7,370
24		Interest Not Directly Related to Road and Equipment Debt	L.21-(L.22+L.23)	90,333
25		Interest Road Property Debt (Note 5)	L.22+(L.24xL.13)	2,423
26		Interest Equipment Debt (Note 5)	L.23+(L.24xL.14)	95,390
27		Embedded Rate of Debt Capital-Road Property	L.25/ L.16	6.79%
28		Embedded Rate of Debt Capital-Equipment	L.26/ L.17	7.02%

Note 1: Directly related means the purpose which the funds were used when the debt was issued.

Note 2: Line 16 plus Line 17 must equal Line 9.

Note 3: Line 21 includes interest on debt in Account 769--Accounts Payable; Affiliated Companies.

Note 4: This interest relates to debt reported in Lines 10 and 11, respectively.

Note 5: Line 25 plus Line 26 must equal Line 21.

NOTES AND REMARKS

This page intentionally left blank.

INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 512

1. Furnish the information called for below between the respondent and the affiliated companies or persons affiliated with the respondent, including officers, directors, stockholders, owners, partners or their wives and other close relatives, or their agents. Examples of transactions are, but are not restricted to, management, legal, accounting, purchasing or other type of service including the furnishing of materials, supplies, purchase of equipment, leasing of structures, land and equipment, and agreements relating to allocation of officers' salaries and other common costs between affiliated companies.

To be excluded are payments for the following types of services:

- (a) Lawful tariff charges for transportation services.
- (b) Payments to or from other carriers for interline services and interchange of equipment.
- (c) Payment to or from other carriers which may reasonably be regarded as ordinarily connected with routine operation or maintenance, but any special or unusual transactions should be reported.
- (d) Payments to public utility companies for rates or charges fixed in conformity with government authority.

2. In column (a) enter the name of the affiliated company, person, or agent with which respondent received or provided services aggregating \$50,000 or more during the year. If an affiliated company provides services to more than one affiliate, and the aggregate compensation amounts to \$50,000 or more for the year, list all the affiliates included in the agreement and describe the allocation of charges. If the respondent provides services to more than one affiliate, and the aggregate compensation amounts to \$50,000 or more for the year, reference to this fact should be made and the detail as to the allocation of charges should be stated. For those affiliates providing services to the respondent, also enter in column (a) the percent of affiliate's gross income derived from transactions with the respondent.

The respondent may be required to furnish as an attachment to Schedule 512 a balance sheet and income statement for each affiliate with which respondent carrier had reportable transactions during the year, or alternatively, attach a "Pro forma" balance

sheet and income statement for that portion or entity of each affiliate which furnished the agreed to services, equipment, or other reportable transaction. The statements, if required, should be prepared on a calendar year basis in conformity with the prescribed schedules for the balance sheet and income statement in Annual Report Form R-1, and should be noted (1) to indicate the method used for depreciating equipment or other property furnished the carrier, and (2) whether the affiliate's Federal income tax return for the year was filed on a consolidated basis with the respondent carrier.

3. In column (b) indicate nature of relationship or control between the respondent and the company or person identified in column (a) as follows:

- (a) If respondent directly controls affiliate, insert the word "direct".
- (b) If respondent controls through another company, insert the word "indirect".
- (c) If respondent is under common control with affiliate, insert the word "common".
- (d) If respondent is controlled directly or indirectly by the company listed in column (a), insert the word "controlled".
- (e) If control is exercised by other means such as a management contract or other arrangement of whatever kind, insert the word "other" and provide a footnote to describe such arrangements.

4. In column (c), fully describe the transactions involved such as management fees, lease of building, purchase of material, etc. When the affiliate listed in column (a) provides more than one type of service in column (c), list each type of service separately and show total for the affiliate. When services are both provided and received between the respondent and an affiliate they should be listed separately and the amounts shown separately in column (e).

5. In column (d), report the dollar amounts of the transactions shown and the effect of any change in the method of establishing the terms from that used in the preceding period.

6. In column (e), report the dollar amounts due from or to related parties and, if not otherwise apparent, the terms and manner of settlement. Insert (P) paid and (R) received by the amount in column (e).

515. RAILS LAID IN REPLACEMENT
(Dollars in thousands)

Give particulars of all rails applied during the year in connection with replacement of rail in previously constructed tracks maintained by the respondent.

In column (a) classify the kind of rail applied as follows:

- (1) New steel rails, Bessemer process.
- (2) New steel rails, open-hearth process.
- (3) New rails, special alloy (describe more fully in a footnote).
- (4) Relay rails.

Returns in columns (c) and (g) should be reported in whole numbers. Fractions of less than one-half should be disregarded, and fractions of one-half or more should be counted as one.

NOTES AND REMARKS

This page intentionally left blank.

INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 700

State particulars of all tracks operated by the respondent at the close of the year, according to the following classification:

- (1) Line owned by respondent
- (2) Line owned by proprietary companies
- (3) Line operated under lease for a specified sum, lessor being (A) an affiliated corporation, or (B) independent or not affiliated with respondent.
- (4) Line operated under contract or agreement for contingent rent, owner being (A) an affiliated corporation, or (B) independent or not affiliated with respondent.
- (5) Line operated under trackage rights.

Give subtotals for each of the several numbered classes, in the order listed above, as well as the total for all classes.

Lengths of track should be reported to the nearest WHOLE mile adjusted to accord with footings; i.e., counting one-half mile or over as a whole mile and disregarding any fraction less than one-half mile.

In Column (a) insert the figure (and letter, if any) indicating its class in accordance with the above list of classifications.

In Column (b) give the various proportions of each class owned or leased by respondent, listing each proportion once in any grouping. Canadian mileage should be segregated and identified on separate lines in the various groupings. For each listing, in Column (d) give its entire length (the distance between terminals of single or first main track), and in the following columns the lengths of second main track, all other main tracks, passing tracks, cross-overs and turn-outs; way switching tracks; and yard switching tracks. These classes of tracks are defined as follows:

RUNNING TRACKS - Running tracks, passing tracks, cross-overs, etc., including turn-outs from those tracks to clearance points.

WAY SWITCHING TRACKS - Station, team, industry and other switching tracks for which no separate service is maintained.

YARD SWITCHING TRACKS - Yard where separate switching services are maintained, including classification, house, team, industry and other tracks switched by yard locomotives.

The returns in Columns (h) and (i) should include tracks serving industries, such as mines, mills, smelters, factories, etc. Tracks belonging to an industry for which no rent is payable should not be included.

Tracks leading to and in gravel and sand pits and quarries, the cost of which is chargeable to a clearing account and which are used in getting out material for the respondent's use, should not be included.

Class (1) includes all lines operated by the respondent at the close of the year to which it has title in perpetuity.

Class (2) includes each line, full title to which is in an inactive proprietary corporation of the respondent (i.e. one all of whose outstanding stocks or obligations are held by or for the respondent, and which is operated by the respondent or an affiliated system corporation without any accounting to the said proprietary corporation). It may also include such line when the actual title to all of the outstanding stocks or obligations rests in a corporation controlled by or controlling the respondent. But in the case of any such inclusion, the facts of the relationship to the respondent of the corporation holding the securities should be fully set forth in a footnote. An inactive corporation is one which has been practically absorbed in a controlling corporation, and which neither operates property nor administers its financial affairs. If it maintains an organization, it does so only for the purpose of complying with legal requirements and maintaining title to property or franchises.

Class (3) includes all tracks operated under a lease or formal conveyance of less than the grantor's interest in the property, with a specific and unconditional rent reserved. The fact that the lessor does or does not maintain an independent organization for financial purposes is immaterial in this connection.

Class (4) is the same as Class (3), except that the rent reserved is conditional upon earnings or some other fact.

Class (5) includes all tracks operated and maintained by others, but over which the respondent has the right to operate some or all of its trains. In the road of this class the respondent has no proprietary rights, but only the rights of a licensee. Include in this class, also, on main tracks, industrial tracks and sidings owned by noncarrier companies and individuals when the respondent operates over them but does not have exclusive possession of them.

Road held by the respondent as joint or common owner or a joint lessee or under any joint arrangement should be shown in its appropriate class, and the entry of length should be the entire length of the portion jointly held. The class symbol should have the letter (j) attached.

Road operated by the respondent as agent for another carrier should not be included in this schedule.

700. MILEAGE OPERATED AT CLOSE OF YEAR

702. MILES OF ROAD AT CLOSE OF YEAR - BY STATES AND TERRITORIES (SINGLE TRACK)

Give particulars, as of the close of the year, of all road operated and of all owned but not operated. The respondent's proportion of operated road held by it as joint or common owner, or under a joint lease, or under any joint arrangement, should be shown in columns (b), (c), (d) or (e), as may be appropriate. The remainder of jointly operated mileage should be shown in column (f). Respondent's proportion of road jointly owned but not operated should be shown in column (h), as appropriate. Mileage which has been permanently abandoned should not be included in column (h).

Mileage should be reported to the nearest WHOLE mile adjusted to accord with footings; i.e., counting one-half mile and over as a whole mile and disregarding any fraction less than one-half mile.

NOTES AND REMARKS

This page intentionally left blank.

INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 710

Instructions for reporting locomotive and passenger-train car data.

1. Give particulars of each of the various classes of equipment which respondent owned or leased during the year.

2. In column (c) give the number of units purchased new or built in company shops. In column (d), give the number of new units leased from others. The term "new" means a unit placed in service for the first time on any railroad.

3. Units leased to others for a period of one year or more are reportable in column (l). Units temporarily out of respondent's service and rented to others for less than one year are to be included in column (h). Units rented from others for a period less than one year should not be included in column (i).

4. For reporting purposes, a "locomotive unit" is a self-propelled vehicle generating or converting energy into motion, and designed solely for moving other equipment. An "A" unit is the least number of wheel bases with superstructure designed for use singly or as a lead locomotive unit in combination with other locomotive units. A "B" unit is similar to an "A" unit but it is not equipped for use singly or as a lead locomotive unit. A "B" unit may be equipped with hostler controls for independent operation at terminals.

5. A "self-propelled car" is a rail motor car propelled by electric motors receiving power from a third rail or overhead, or internal combustion engines located on the car itself. Trailers equipped for use only in trains of cars that are self-propelled are to be included as self-propelled equipment.

6. A "diesel" unit includes all units propelled by diesel internal combustion engines regardless of final drive or whether power may at times be supplied from an external conductor. Units other than diesel-electric, e.g., diesel-hydraulic, should be identified in a footnote giving the number and a brief description. An "electric" unit includes all units which receive electric power from a third rail or overhead contact wire, and use the power to drive one or more electric motors that propel the vehicle. An "other self-powered unit" includes all units other than diesel or electric, e.g., steam, gas turbine. Show the type of unit, service and number, as appropriate, in a brief description sufficient for positive identification. An "auxiliary unit" includes all units used in conjunction with locomotives, but which draw their power from the "mother" unit, e.g., boosters, slugs, etc. For reporting purposes, indicate radio-controlled self-powered diesel units on lines 1 through 8, as appropriate. Radio-controlled units that are not self-powered, i.e., those without a diesel, should be reported on line 13 under "auxiliary units".

7. Column (k) should show aggregate capacity for all units reported in column (j), as follows: For locomotive units, report the manufacturers' rated horsepower (the maximum continuous power output from the diesel engine or engines delivered to the main generator or generators for tractive purposes). Exclude capacity data for steam locomotives. For passenger-train cars report the number of passenger seats available for revenue service, counting one passenger to each berth in sleeping cars.

8. Passenger-train car types and service equipment car types correspond to AAR Mechanical Division designations. Descriptions of car codes and designations are published in The Official Railway Equipment Register.

9. Cross-checks

Schedule 710	Schedule 710
Line 5, column (j)	= Line 11, column (l)
Line 6, column (j)	= Line 12, column (l)
Line 7, column (j)	= Line 13, column (l)
Line 8, column (j)	= Line 14, column (l)
Line 9, column (j)	= Line 15, column (l)
Line 10, column (j)	= Line 16, column (l)

When data appear in column (j) lines 1 thru 8, column (k) should have data on same lines.

When data appear in columns (k) or (l) lines 36 thru 53, and 55, column (m) should have data on same lines.

710. INVENTORY OF EQUIPMENT - Continued

4. Column (m) should show the aggregate capacity for all units reported in columns (k) and (l), as follows. For freight-train cars, report the nominal capacity (in tons of 2,000 lbs.) as provided for in Rule 86 of the AAR Code of Rules Governing Cars in Interchange. Convert the capacity of tank cars to capacity in tons of the commodity which the car is intended to carry customarily.

5. Time mileage cars refer to freight cars, other than cabooses, owned or held under lease arrangement, whose interline rental is settled on a per diem and line haul mileage basis under "Code of Car Hire Rules" or would be so settled if used by another railroad.

NOTES AND REMARKS

710S. UNIT COST OF EQUIPMENT INSTALLED DURING THE YEAR
(Dollars in thousands)

1. Give particulars as requested, separately, for the various classes of new units and rebuilt units of equipment installed by respondent during the year. If information regarding the cost of any units installed is not complete at time of filing of report, the units should be omitted, but reference to the number of units omitted should be given in a footnote, the details as to cost to be given in the report of the following year. The cost of units under construction at the close of the year should not be reflected in this schedule even though part of the cost appears in the property account for the year. Indicate in column (e) whether an installation represents equipment purchased (P), built or rebuilt by contract in outside railroad shops (C), or built or rebuilt in company or system shops (S) including units acquired through capitalized leases (L).

2. In column (a) list each class or type of locomotive unit, car or TOFC/COFC equipment on a separate line. By class is meant the standard classification used to distinguish types of locomotive units, freight cars or other equipment adopted by the Association of American Railroads, and should include physical characteristics requested by Schedule 710. Locomotive units should be identified as to power source, wheel arrangement, and horsepower per unit, such as multiple-purpose diesel locomotive A units (B-B), 2500 HP. Cars should be identified as to special construction or service characteristics, such as aluminum-covered hopper car (LO), steel boxcars-special service (XAP), etc. For TOFC/COFC show type of equipment as enumerated in Schedule 710.

3. In column (c) show the total weight in tons of 2,000 pounds. The weight of the equipment acquired should be the weight empty.

4. The cost should be the complete cost as entered on the ledger, including foreign line freight charges and handling charges.

5. Data for this schedule should be confined to the units reported in Schedule 710, columns (c) and (e) for locomotive units, passenger-train cars and company service cars and columns (d) and (f) for freight train cars, floating equipment and highway revenue equipment. Disclose new units in the upper section of this schedule and in the lower section disclose rebuilt units acquired or rewritten into the respondent's accounts. The term "new" as used herein shall mean a unit or units placed in service for the first time on any railroad.

6. All unequipped boxcars acquired in whole or part with incentive per diem funds should be reported on separate lines and appropriately identified by footnote or sub-heading.

GENERAL INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULES 720, 721, 723 AND 726

1. For purposes of these schedules, the track categories are defined as follows:
 Track category 1
 A - Freight density of 20 million or more gross ton-miles per track mile per year (include passing tracks, turnouts and crossovers).
 B - Freight density of less than 20 million gross ton-miles per track mile per year, but at least 5 million (include passing tracks, turnouts and crossovers).
 C - Freight density of less than 5 million gross ton-miles per track mile per year, but at least 1 million (include passing tracks, turnouts and crossovers).
 D - Freight density of less than 1 million gross ton-miles per track mile per year (include passing tracks, turnouts and crossovers).
 E - Way and yard switching tracks (passing tracks, crossovers and turnouts shall be in category A, B, C, D, F and potential abandonments, as appropriate).
 F - Track over which any passenger service is provided (other than potential abandonments). Mileage should be included within track categories A through E unless there is dedicated entirely to passenger service F.

 Potential abandonments - Route segments identified by railroads as potentially subject to abandonment as required by Section 10904 of the Interstate Commerce Act.
2. This schedule should include all class 1, 2, 3 or 4 track from schedule 700 that is maintained by the respondent (class 5 is assumed to be maintained by others).
3. If, for two consecutive years, a line segment classified in one track category maintains a traffic density which would place it in another, it shall be reclassified into that category as of the beginning of the second year.
4. Traffic density related to passenger service shall not be included in the determination of the track category of a line segment.

720. TRACK AND TRAFFIC CONDITIONS

1. Disclose the requested information pertaining to track and traffic conditions.

Line No.	Track category (a)	Mileage of tracks at end of period (whole numbers) (b)	Average annual traffic density in millions of gross ton-miles per track mile* (use two decimal places) (c)	Average running speed limit (use two decimal places) (d)	Track miles under slow orders (e)	Line No.
1	A	1,252	43.81	48.12	0.40	1
2	B	2,108	11.36	34.89	130.20	2
3	C	835	2.76	21.88	75.80	3
4	D	363	0.25	15.40	7.00	4
5	E	930	XXXXXXXXXX	XXXXXXXXXX	0.00	5
6	TOTAL (1)	5,488	13.27	34.27	213.40	6
7	F	560	XXXXXXXXXX	XXXXXXXXXX	0.00	7
8	Potential abandonments	0	N/A	N/A	0.00	8

* To determine average density, total track miles (route miles times number of tracks) rather than route miles shall be used.

(1) Total excludes 108 miles of Class 1 and J-1 track that is maintained by others.

721. TIES LAID IN REPLACEMENT

1. Furnish the requested information concerning ties laid in replacement.
2. In column (j), report the total board feet of switch and bridge ties laid in replacement.
3. The term "spot maintenance" in column (k) means repairs to track components during routine inspections, as opposed to programmed replacements aimed at upgrading the general condition of the tracks. "Percent of spot maintenance" refers to the percentage of total ties or board feet laid in replacement considered to be spot maintenance.
4. In line 9, the average cost per tie should include transportation charges on foreign lines, tie trains, loading, inspection and the cost of andling ties in general supply storage and seasoning yards, and in the case of treated ties, also the cost of handling at treating plants and the cost of treatment. The cost of unloading, hauling over carrier's own lines, and placing the ties in tracks and of train service other than that necessary in connection with loading or treatment should not be included in this schedule.

722. TIES LAID IN ADDITIONAL TRACKS AND IN NEW LINES AND EXTENSIONS
(Dollars in thousands)

Give particulars of ties laid during the year in new construction during the year.

In column (a) classify the ties as follows:

U - Wooden ties untreated when applied.

T - Wooden ties treated before application.

S - Ties other than wooden (steel, concrete, etc.). Indicate type in column (h).

Report new and second-hand (relay) ties separately, indicating in column (h) which ties are new.

In columns (d) and (g) show the total cost, including transportation charges on foreign lines, tie trains, loading, inspection, and the cost of handling ties in general supply, storage and seasoning yard. In the case of treated ties, also show the cost of handling at treating plants and the cost of treatment. The cost of unloading, hauling over carrier's own lines and placing the ties in tracks, and of train service, other than that necessary in connection with loading and treatment, should not be included in this schedule.

723. RAILS LAID IN REPLACEMENT

1. Furnish the requested information concerning rails laid in replacement.
2. The term "spot maintenance" in column (h) means repairs to track components during routine inspections, as opposed to programmed replacements aimed at upgrading the general condition of the tracks. "Percent of spot maintenance" refers to the percentage of total rails laid in replacement considered to be spot maintenance.
3. In line 9, the average cost of new and relay rail should include the cost of loading at the point of purchase ready for shipment, the freight charges paid on foreign lines and the cost of handling rails in general supply and storage yards. The cost of unloading, hauling over carrier's own lines and placing the rails in tracks and of train service in connection with the distribution of rails should not be included in this schedule.

724. RAILS LAID IN ADDITIONAL TRACKS AND IN NEW LINES AND EXTENSIONS
(Dollars in thousands)

1. Give particulars of all rails applied during the year in connection with the construction of new track. In column (a) classify the kind of rail applied as follows:

- (1) New steel rails, Bessemer process.
- (2) New steel rails, open-hearth process.
- (3) New rails, special alloy (describe more fully in a footnote).
- (4) Relay rails.

2. Returns in columns (c) and (g) should be reported in WHOLE numbers. Fractions of less than one-half should be disregarded, and fractions of one-half or more should be counted as one.

3. The returns in columns (d) and (h) should include the cost of loading at the point of purchase ready for shipment, the freight charges paid foreign lines, and the cost of handling rails in general supply and storage yards. The cost of unloading, hauling over carrier's own lines, and placing the rails in tracks as well as train service in connection with distribution of the rail should not be included in this schedule.

725. WEIGHT OF RAIL

Give the particulars called for below concerning the road and track operated by the respondent at the close of the year. Only the respondent's proportion of jointly owned mileage should be included. Under "Weight of rail" the various weights of rails should be given. Road and track occupied under trackage right or other form of license should not be included herein, but all road and track held under any form of lease (granting exclusive possession to the lessee) should be included.

750. CONSUMPTION OF DIESEL FUEL
(Dollars in thousands)

LOCOMOTIVES			
Line No.	Kind of locomotive service (a)	Diesel	Line No.
		Diesel oil (gallons) (b)	
1	Freight	71,511,004	1
2	Passenger	0	2
3	Yard switching	3,474,856	3
4	TOTAL	74,985,860	4
5	COST OF FUEL \$(000) *	245,341	5
6	Work Train	761,971	6

* Show cost of fuel charged to train and yard service (function 67-Loco. Fuels). The cost stated for diesel fuel should be the total charges in the accounts specified, including freight charges and handling expenses. Fuel consumed by mixed and special trains that are predominantly freight should be included in freight service, but where the service of mixed or special trains is predominantly passenger, the fuel should be included in passenger service.

INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 755

Unit Train, Way Train, and Through Train data under Items 2, 3, 4, 6, and 12 shall be obtained from conductor's wheel reports (freight) or similar records. Unit train service is a specialized scheduled shuttle type service in equipment (railroad or privately owned) dedicated to such service, moving between origin and destination. The applicable tariffs and/or contracts generally require that a specific minimum tonnage or quantity of carloads be tendered as a unit for shipment on one bill of lading or other shipping document in a solid train for movement between origin and destination. Such tariffs and/or contracts generally contain restricted detention provisions and are subject to time-volume requirements which reflect the approximate capacity of the unit trains for the stated period. Way trains are defined as trains operated primarily to gather and distribute cars in road service and move them between way stations or way points. Through trains are those trains operated between two or more major concentration or distribution points. Do not include unit train statistics in way and through train statistics. A Work train is a train operated solely or preponderantly for the purpose of transporting company freight, work equipment or company employees. Statistics for work trains should be reported under Item 11 only. Statistics related to company equipment, company employees and company freight moving in transportation trains are not to be reported in Item 11, but are to be reported in Items 4-17, 6-04, 7-02, and 8-04 and 8-05 as instructed in notes, I, K, and L.

- (A) Report miles of road operated at close of year, excluding industrial tracks, yard tracks, and sidings.
- (B) A train-mile is the movement of a train a distance of one mile. In computing train-miles, fractions representing less than one-half mile shall be disregarded and other fractions considered as one mile. Train Miles-Running shall be based on the actual distance run between terminals and/or stations and shall be computed from the official time tables or distance tables. Train-miles shall not be increased to cover the running of locomotives from shops to terminals, doubling hills, switching, or other work at way stations, or for the service of helper or pusher locomotives or of extra locomotives on double-head or triple-head trains. When the carrier's trains are detoured over foreign roads, the miles shall be computed on the basis of the miles actually run and in accordance with the service performed. Train-miles shall be kept separately for trains hauled by locomotives and trains moved by motorcars.
- (C) A motorcar is a self-propelled unit of equipment designed to carry freight or passenger traffic, and is not considered a locomotive.
- (D) A locomotive is a self-propelled unit of equipment designed solely for moving other equipment. A locomotive unit-mile is a movement of a locomotive unit a distance of one mile under its own power. Include miles made by all locomotive units. Exclude miles made by motorcars. Miles of locomotives in helper service shall be computed on the basis of actual distance run in such service.
- (E) All locomotives unit-miles in road service shall be based on the actual distance run between terminals and/or stations. Follow instructions (B) regarding fractions and official time tables for computing locomotive-miles.
- (F) Train switching locomotive-miles shall be computed at the rate of six miles per hour for the time actually engaged in such service. Include miles allowed train locomotives for performing switching service at terminals and way stations.
- (G) Yard switching locomotive-miles shall be computed at the rate of six miles per hour for the time actually engaged in yard switching service. Include miles allowed for yard locomotives for switching service in yards where regular switching service is maintained and in terminal switching and transfer service.
- (H) A car-mile is a movement of a unit of car equipment a distance of one mile. Use car designations shown in Schedule 710. Under Railroad Owned and Leased Cars, Items 4-01 and 4-11, report both foreign cars and respondent's own cars while on the line of the respondent railroad. In Items 4-13 and 4-15, report private-line cars and shipper owned cars. Loaded and empty miles should be reported whether or not the railroad reimbursed the owner on a loaded and/or empty mile basis. Report miles made by flatcars carrying empty highway trailers that are not moving under revenue billings as empty freight car-miles. Do not report miles made by motorcars or business cars.
- (I) Exclude from Item 4-01, 4-11, 4-13, and 4-15 car-miles of work equipment, cars carrying company freight, and non-revenue private line cars moving in transportation trains. Include such car-miles in Items 4-17, 4-18, and 4-19. If private line cars move in revenue service, the loaded and empty miles should not be considered no-payment or non-revenue car-miles.
- (J) Report miles actually run by passenger-train cars in transportation service. Passenger-train car-miles include miles run by coaches and cars in which passengers are carried at regular tariff fares without extra charge for space occupied; miles run by combination passenger and baggage, passenger and mail, passenger and express; miles run by sleeping, parlor and other cars for which an extra fare is charged; miles run by dining, cafe, and other cars devoted exclusively to the serving of meals and other refreshments and by club, lounge, and observation cars; and miles run by other passenger-train cars where services are combined such as baggage, express and mail.
- (K) From conductor's or dispatcher's train reports or other appropriate source's, compute weight in tons (2,000 lbs). Item 6-01 includes weight of all locomotive units moved one mile in transportation trains. Ton-miles of motorcars should be excluded. Items 6-02 and 6-03 represent tons behind locomotive units (cars and contents, cabooses) moved one mile in transportation trains (excluding non-revenue gross ton-miles). Non-revenue gross ton-miles in transportation trains include work equipment and cars carrying company freight (and their contents). Use 150 lbs. as the average weight per passenger, and four tons as the average weight of contents of each head-end car.

INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 755 - Concluded

- (L) From conductor's train reports or other appropriate sources, compute ton-miles of freight. Ton-miles represent the number of tons of revenue and non-revenue freight moved one mile in transportation train. Include net ton-miles in motorcar trains. Exclude l.c.l. shipment of freight handled in mixed baggage express cars. Total ton-miles of revenue freight should correspond to the ton-miles reported on Form CBS.
- (M) Road service represents elapsed time of transportation trains (both ordinary and light) between the time of leaving the initial terminals and the time at final terminals, including trains switching at way stations and delays on road as shown by conductors' or dispatchers' train reports. Include time of motorcar service performed by train locomotives at terminals and way stations. Report in Item 9-02 train switching hours included in Item 9-01. Train switching is the time spent by the train while performing switching service at terminals and way stations where no regular yard service is maintained. A train hour is independent of the number of locomotives in the train.
- (N) Yard switching hours are hours expended in switching service performed by yard crews in yards where regular switching service is maintained, including switching and transfer service in connection with the transportation of revenue and incidentally of company freight. Hours in yard switching are independent of the number of locomotives used.
- (O) Work-train miles include the miles run by trains engaged in company service such as official inspection, inspection trains for railway commissioners for which no revenue is received, trains running special with fire apparatus to save carrier's property from destruction, trains run for transporting the carrier's employees to and from work when no transportation charge is made, wrecking trains, trains run solely for the purpose of transporting company material, trains run for distributing material and supplies for use in connection with operations, and all other trains used in work-train services. Exclude miles run by locomotives which engaged incidentally in switching company materials in company shops or material yards in connection with regular yard switching service or in switching equipment for repairs between yards and shops.
- (P) The number of loaded freight cars shall be obtained from the conductors' wheel report and shall be the sum of all loaded cars handled by each train. For example, if a car moves loaded (1) in a way train from the origination points, (2) in two through trains, and (3) in a way train to the destination point, the total count of loaded cars would be four: two counts for the movements in the way trains and two counts for the movements in through trains. Therefore, each car originated or received from a connecting carrier receives an initial count, plus one count for each subsequent physical transfer between trains on respondent's lines. No additional count is given because of crew change or changes in track identification number unless there is a physical transfer of the car between trains. Each car moving under revenue billing shall be considered as a loaded car.
- (Q) Report vehicle (TOFC trailers/containers, automobiles and trucks) loaded and unloaded to and from TOFC and multiple level freight cars when the work is performed at the railroad's expense.
- (R) Report the number of loaded revenue trailers/containers picked up, plus revenue trailers/containers delivered in TOFC/COFC and in highway interchange service, when the work is performed at the railroad's expense. (Performed at railroad's expense means that railroad employees perform the service or that the railroad hires a subsidiary or outside contractor to perform the service.) Do not include those trailers/containers which are picked up or delivered by a shipper or motor carrier, etc., when a tariff provision requires the shipper or motor carrier, etc., and not the railroad, perform that service. Note: The count should reflect the trailer/containers for which expenses are reported in Schedule 417 line 2 column (b).
- (S) Report under Marine Terminals, Item 16, the tons loaded onto and unloaded from marine vessels at the expense of the reporting railroad.
- (T) Report the total number of foreign railroad cars on line at the end of the year (except surplus cars, see below). Foreign railroad cars refers to freight cars owned by other railroads, whose interline rental is settled on time (by hour) and actual line-haul mileage charges under the Code of Car Hire Rules.
- Carriers will be governed by local conditions in determining whether a car at an interchange point should be considered "on-line". Unserviceable cars include cars on repair tracks undergoing or awaiting repairs. They include cars on repair tracks repaired and awaiting switching, cars on repair tracks undergoing or awaiting repairs switching, cars awaiting movement to repair tracks held in train yard (excluding cars which are to be repaired in train yard without loss of time), car moving empty in trains en route to shop, and cars stored awaiting disposition.
- Surplus cars are cars which are in serviceable condition available for loading on the last day of the year, but have not been placed for loading within 48 hours. This count can be an annual average based on weekly count of cars that have not been placed for loading within 48 hours.
- (U) Flat-TOFC/COFC Car-miles reported in lines 25 (4-020), 41 (4-120), 57 (4-140), and 75 (4-160) will be computed using cars rather than constructed container platforms. For example, an articulated car consisting of five platforms moved one mile will be counted as one car-mile, not five-car miles.
- (V) The intermodal Load Factor reported on Line 134 will be calculated for the average number of intermodal (TOFC/COFC) units loaded on the average intermodal car. Units are to be calculated in the same manner as Line 123 (13 TOFC/COFC-No. of Revenue Trailers & Containers Loaded and Unloaded (Q)). Intermodal cars will be calculated in accordance with instruction U for reporting Flat-TOFC/COFC Car-miles. Both intermodal (TOFC/COFC) units and intermodal cars are to be calculated using actual units and not constructed intermodal (TOFC/COFC) units or cars.

755. RAILROAD OPERATING STATISTICS

Line No.	Cross Check	Item description (a)	Freight train (b)	Passenger train (c)	Line No.

**PTC 332. DEPRECIATION BASE AND RATES - ROAD AND EQUIPMENT
OWNED AND USED AND LEASED FROM OTHERS**
(Dollars in thousands)

1. Show in columns (b) and (e), for each primary account, the depreciation base used to compute depreciation charges for the month of January, and in columns (c) and (f), the depreciation charges for the month of December. In columns (d) and (g) show the composite rates used in computing depreciation charges for December, and on lines 30 and 39 of these columns show the composite percentage for all road and equipment accounts, respectively, ascertained by applying the primary account composite rates to the depreciation base used in computing the charges for December, and dividing that total by the total depreciation base for the same month. The depreciation base should not include the cost of equipment used, but not owned, when the rents are included in rent for equipment and Account Nos. 31-22-00, 31-23-00, 31-25-00, 31-21-00, 35-21-00, 35-23-00, 35-22-00, and 35-25-00. It should include cost of equipment owned and leased to others when the rents therefrom are included in the rent for equipment Accounts Nos. 32-21-00, 32-22-00, 32-23-00, 32-25-00, 36-21-00, 36-22-00, 36-23-00, and 36-25-00, inclusive. Composite rates used should be those prescribed or authorized by the Board, except that where the use of component rates has been authorized, the composite rates to be shown for the respective primary accounts should be recomputed from the December charges developed by the use of the authorized rates. If any changes in rates were effective during the year, give particulars in a footnote.

2. All leased properties may be combined and one composite rate computed for each primary account, or a separate schedule may be included for each such property.

3. Show in columns (e), (f) and (g) data applicable to Lessor property, when the rent therefor is included in Account Nos. 31-11-00, 31-12-00, 31-13-00, 31-21-00, 31-22-00, and 31-23-00, inclusive.

4. If depreciation accruals have been discontinued for any account, the depreciation base should be reported, nevertheless, in support of depreciation reserves. Authority for the discontinuance of accruals should be shown in a footnote indicating the effected account(s).

5. Disclosures in the respective sections of this schedule may be omitted if either total road leased from others or total equipment leased from others represents less than 5% of total road owned or total equipment owned, respectively.

PTC 335. ACCUMULATED DEPRECIATION- ROAD AND EQUIPMENT OWNED AND USED
(Dollars in Thousand)

1. Disclose the required information in regard to credits and debits to Account No. 735, "Accumulated Depreciation: Road and Equipment Property", during the year relating to owned and used road equipment. Include entries for depreciation of equipment owned but not used when the resulting rents are included in the "Lease Rentals-Credit-Equipment" accounts and "Other Rents-Credit-Equipment" accounts. Exclude any entries of depreciation of equipment that is used but not owned when the resulting rents are included in "Lease Rental- Debit-Equipment" account and "other Rents-Debit-Equipment" accounts. (See Schedule 351 for the accumulated depreciation to road and equipment owned and leased to others.)

2. If any data are included in columns (d) or (f), explain the entries in detail.

3. A debit balance in columns (b) or (g) for any primary account should be designated "Dr."

4. If there is any inconsistency between the credits to the reserve as shown in column (c) and the charges to operating expenses, a full explanation should be given.

5. Enter amounts representing amortization under an authorized program other than for defense projects on lines 29 and 39.

PTC 352B. INVESTMENT IN RAILWAY PROPERTY USED IN TRANSPORTATION SERVICE
 (By Property Accounts)
 (Dollars in thousands)

1. In columns (b) through (e) give, by primary accounts, the amount of investment at the close of the year in property of respondent and each group or class of companies and properties.

2. The amounts for respondent and for each group or class of companies and properties on line 44 herein, should correspond with the amounts for each class of company and property shown in schedule 352A. Continuing records shall be maintained by respondent of the primary property accounts separately for each company or property included in the schedule.

3. Report on line 29 amounts representing capitalization of rentals for leased property based on 6 percent per year where property is not classified by accounts by non-carrier owners, or where cost of property leased from other carriers is not ascertainable. Identify non-carrier owners, and briefly explain on page 39 methods of estimating value of property of non-carriers or property of other carriers.

4. Report on line 30 amounts not includible in the accounts shown, or on line 29. The items included should be briefly identified and explained. Also include here those items after permission is obtained from the Board for exceptions to prescribed accounting. Reference to such authority should be made when explaining the amounts reported. Respondents must not make arbitrary changes to the printed stub or column headings without specific authority from the Board.

PTC 710. INVENTORY OF EQUIPMENT - Continued

Instructions for reporting freight-train car data.

1. Give particulars of each of the various classes of equipment which respondent owned or leased during the year.
2. In Column (d) give the number of units purchased or built in company shops. In Column (e) give the number of new units leased from others. The term "new" means a unit placed in service for the first time on any railroad.
3. Units leased to others for a period of one year or more are reportable in Column (n). Units temporarily out of respondent's service and rented to others for less than one year are to be included in Column (i). Units rented from others for a period less than one year should not be included in Column (j).

UNITS OWNED, INCLUDED IN INVESTMENT ACCOUNT, AND LEASED FROM OTHERS

PTC 710. INVENTORY OF EQUIPMENT - Continued

4. Column (m) should show aggregate capacity for all units reported in Columns (k) and (l), as follows. For freight-train cars, report the nominal capacity (in tons of 2,000 lbs) as provided for in Rule 86 of the AAR Code of Rules Governing Cars in Interchange. Convert the capacity of tank cars to capacity in tons of the commodity which the car is intended to customarily carry.

5. Time-mileage cars refers to freight cars, other than cabooses, owned or held under lease arrangement, whose interline rental is settled on a per diem and line haul mileage basis under "Code of Car Hire Rules" or would be so settled if used by another railroad.

NOTES AND REMARKS

PTC 710S. UNIT COST OF EQUIPMENT INSTALLED DURING THE YEAR

(Dollars in Thousands)

1. Give particulars, as requested, separately, for the various classes of new units and rebuilt units of equipment installed by respondent during the year. If information regarding the cost of any units installed is not complete at the time of filing of this report, the units should be omitted, but reference to the number of units omitted should be given in a footnote, the details as to cost to be given in the report of the following year. The cost of units under construction at the close of the year should not be reflected in this schedule even though part of the cost appears in the property account for the year. Indicate in column (e) whether an installation represents equipment purchased (P), built or rebuilt by contract in outside railroad shops (C), or built or rebuilt in company or system shops (S), including units acquired through capitalized leases (L).
2. In column (a) list each class or type of locomotive unit, car, or TOFC/COFC equipment on a separate line. By class is meant the standard classification used to distinguish types of locomotive units, freight cars, or other equipment adopted by the Association of American Railroads, and should include physical characteristics requested by Schedule 710. Locomotive units should be identified as to power source, wheel arrangement, and horsepower per unit, such as multiple-purpose diesel locomotive A units (B-B), 2500 HP. Cars should be identified as to special construction or service characteristics, such as aluminum-covered hopper car (LO) or steel boxcars-special service (XAP). For TOFC/COFC, show the type of equipment as enumerated in Schedule 710.
3. In column (c) show the total weight in tons of 2,000 pounds. The weight of equipment acquired should be the weight empty.
4. The cost should be the complete cost as entered on the ledger, including foreign line freight charges and handling charges.
5. Data for this schedule should be confined to the units reported in Schedule 710, columns (c) and (e) for locomotive units, passenger-train cars, and company service cars, and columns (d) and (f) for freight train cars, floating equipment, and highway revenue equipment. Disclose new units in the upper section of this schedule. Disclose rebuilt units acquired or rewritten into the respondent's accounts in the lower section. The term "new" as used herein shall mean a unit or units placed in service for the first time on any railroad.
6. All unequipped boxcars acquired in whole or in part with incentive per diem funds should be reported on separate lines and be appropriately identified by footnote or sub-heading.

GENERAL INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE PTC 720

1. For purposes of these schedules, the track categories are defined as follows:
 - A. Freight density of 20 million or more gross ton-miles per track-mile per year (including passing tracks, turnouts, and crossovers).
 - B. Freight density of less than 20 million gross ton-miles per track-mile per year, but at least 5 million (including passing tracks, turnouts, and crossovers).
 - C. Freight density of less than 5 million gross ton-miles per track-mile per year, but at least 1 million (including passing tracks, turnouts, and crossovers).
 - D. Freight density of less than 1 million gross ton-miles per track-mile per year (including passing tracks, turnouts, and crossovers).
 - E. Way and yard switching tracks (passing tracks, turnouts, and crossovers shall be included in categories A, B, C, D, F, or potential abandonments, as appropriate).
 - F. Track over which any passenger service is provided (other than potential abandonments). Mileage should be included within track categories A through E unless it is dedicated entirely to passenger service, category F.
- Po tential abandonments - Route segments identified by railroads as potentially subject to abandonment as required by Section 10903 of the ICC Termination Act of 1995.
2. This schedule should include all class 1, 2, 3, or 4 track from Schedule 700, that is maintained by the respondent. (Class 5 track is assumed to be maintained by others)
3. If, for two consecutive years, a line segment classified in one track category maintains a traffic density which would place it in another, it shall be reclassified into that category as of the beginning of the second year.
4. Traffic density related to passenger service shall not be included in the determination of the track category of a line segment.

PTC 720. TRACK AND TRAFFIC CONDITIONS

Disclose the requested information pertaining to track and traffic conditions.

Line No.	Track category (a)	Mileage of tracks at end of period (whole numbers) (b)	Average annual traffic density in millions of gross ton-miles per track-mile (use two decimal places) (c)	Average running speed limit (use two decimal places) (d)	Track miles under slow orders at end of period (e)
