600 Burlington St SE
Mandan ND 58554

Prosper Junction
46°56'57.74°N Latitude, 96°59'7.76° Longitude

Portable Small Volume Prover Information:

Daniel Measurement and Control, Inc.
Serial Number 1604-16501-1-1
Capacity 15 Gallons

Variance Permit Request To:

Use the Daniel Measurement and Control, Inc. portable small volume prover enumerated above as a standard to certify Nustar's commercial measuring devices. This prover is not certified as traceable by a NIST-recognized metrology laboratory.

Temporary Variance Permit Conditions:

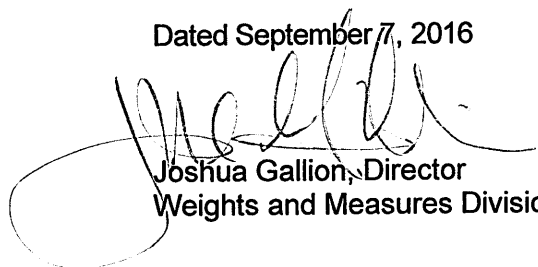

- The portable small volume prover must be tested at least once every three years by a third party using the water draw method and using testing equipment that is traceable to and certified by a NIST-recognized metrology laboratory. The prover must be certified as compliant with American Petroleum Institute standards for small volume proving systems.
- The Commission must be notified at least 10 days prior to commencement of a prover test to allow a representative of the Commission the option to witness the testing process.

Nustar Pipeline Operating Partnership L.P.
Page 2
September 7, 2016

- A copy of the portable small volume prover metrology must be filed with the Commission after each recertification.
- Except for the specific variance granted, all applicable North Dakota Laws and Rules must be followed.
- The enclosed Temporary Variance Permit must be kept near the prover.

If you have any further questions, or require additional information, please feel free to contact me at (701) 328-4020.

Dated September 7, 2016
