Josh, Inspected CHS Edgeley and found scale to be as described in variance and within acceptance tolerance. Based on this I recommend that this variance be set to permanent with no quarterly test required. Items listed on variance should have no effect on the scales tolerance. Wayne

Hi Wayne

Here's something for you to do when you feel better.

The temporary variance permit for the scale extension for CHS Nutrition is about to expire. Attached is the variance along with the test reports. Please review these documents and also stop by the location and do a visual inspection in addition to testing the scale, so you'll need your truck.

When you're finished, please email me a summary which will be used to determine whether or not to issue a permanent variance permit.

Thank you.
