In re: Meadowlark Midstream Company, LLC  
Divide Lateral Pipeline Project  
Divide and Williams Counties  
Case No.: PU-14-223  
Our File No.: 88-393-002

Dear Mr. Nitschke:

Enclosed please find a hard copy of the revised as-built alignment sheets for the pipeline in the captioned case, along with a flash drive containing the sheets in a digital format in a PDF file and a zip file.

To clarify, the as-built surveys originally filed as a part of Exhibit 8 contained accurate elevations shots for the pipeline, but the topography ground shots were surveyed too far away from the x-ray shots of the pipe and were also taken at very large intervals, leaving gaps in the data and inaccuracies in the recorded pipe depth. Meadowlark's surveyors replaced the topographic data with another set of ground shots that were more frequently spaced and closer to the pipeline survey shots. The enclosed as-built alignment sheets reflect those changes.

If you have any questions, please let me know.

Very truly yours,

A handwritten signature in blue ink, appearing to read "John W. Morrison".
