In re: ONEOK Bakken Pipeline, L.L.C.
Targa Lateral Pipeline Project
McKenzie County
Case No. PU-14-254
Our File No. 72-591-001

Dear Mr. Nitschke:

Enclosed please find eleven copies of the ONEOK Bakken Pipeline, L.L.C. Certification Letter for Targa Lateral Pipeline Project Route Modifications with attached maps in the captioned case. The original letter will be delivered as soon as we receive it.

Please call should you have any questions. Thank you.

Very truly yours,

John W. Morrison

ONEOK Bakken Pipeline, L.L.C. – Certification Letter for Targa Lateral Pipeline Project Route Modifications

Dear Commissioners:

In accordance with North Dakota Century Code 49-22-16.3, this letter, signed by James Akingbola Operations Engineer with authority to bind ONEOK Bakken Pipeline, L.L.C. (“ONEOK”) is provided to notify the North Dakota Public Service Commission (Commission) that ONEOK intends to modify the route of the Targa Lateral Pipeline Project located in McKenzie County, North Dakota (Project) in two locations.

The Project is a Y-grade NGL transmission pipeline approximately 10.6 miles long. The Project will originate at the Targa Resources LLC’s Little Missouri Plant and will terminate at an interconnect with ONEOK’s existing Garden Creek Pipeline south of Arnegard, North Dakota. A Findings of Fact, Conclusions of Law and Order was filed on October 16, 2014 (PU-14-254). ONEOK intends to modify the Project route at milepost 8.8 and between milepost 10.1 and 10.3 to maintain a safe distance from existing infrastructure. A description of the modified route follows, and maps depicting the modifications are attached.

Milepost 8.8 route modification: ONEOK plans to adjust the centerline south of 22nd Street NW near milepost 8.8. The point of inflection will be shifted approximately 15 feet south to allow construction activities to avoid an existing fiber optic line located on the south side of 22nd Street. This modification will also allow the road to be bored without further impacts to surrounding pipelines.

Milepost 10.1 route modification: ONEOK plans to adjust the centerline between mileposts 10.1 and 10.3. The point of inflection will be shifted approximately 25 feet south to maintain a safe distance from the nearby Northern Border Pipeline.

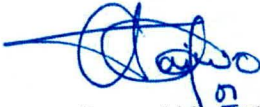

In accordance with N.D.C.C. § 49-22-16.3(1), ONEOK certifies as follows:

1. The Project’s construction activities will be conducted wholly within the 250 foot corridor designated in the Findings of Fact, Conclusions of Law and Order in Case No. PU-14-254 and all necessary right-of-way easements within the specified corridor have been acquired.
2. An environmental analysis, conducted for ONEOK in May 2014, evaluated the Project relative to the Exclusion and Avoidance Areas set forth in N.D. Admin. Code § 69-06-08-02, and the Project as rerouted will not affect any known Exclusion or Avoidance Areas .

- ONEOK will comply with the October 16, 2014 order in Case PU-14-254 designating the corridor and designating the route and all applicable federal, state, and local laws and rules.

ONEOK requests that the Commission acknowledge receipt of the attached Certification and appreciates the time and attention provided to this matter by the Commission and its Staff. E3 Environmental, LLC has been retained by ONEOK to provide environmental consulting support for this project. Should you have any questions or require additional information, please contact Katie Schmidt at 651.282.0652 or kschmidt@go2e3.com; you may also contact me at 918.732.1472 or Todd.Kelvington@oneok.com.

Sincerely,

James Akingbola
Operations Engineer
