Re: PU-14-625

Honorable Commissioners,

As part of the Targa Badlands New Town to Stanley Pipeline: Tree and Shrub Replacemnet Plan 2015 (the Plan), we are requesting a change regarding a planting location and also a species of tree.

The Plan describes planting of 37 Hawthorn trees within Section 21 of Township 152 North, Range 92 West. We respectfully request the two changes below:

1. Substitution of Canadian Choke Cherry for Hawthorn. This will include all 37 trees. This request is made due to sickness present in Hawthorn trees in inventory at the nursery. The Canadian Choke Cherry trees in inventory are healthy trees and available for planting now.
2. Change of location from Section 21 of Township 152 North, Range 92 West to Section 12 of Township 152 North, Range 93 West. This request reflects the landowners desire to have trees planted at this location.

Respectfully submitted,

Paul D. Pansegrau
