**NOTICE OF FILING AND NOTICE OF OPPORTUNITY FOR HEARING**

**October 8, 2014**

On February 26, 2014 the Public Service Commission issued an order approving a Transmission Cost Recovery (TCR) tariff rider pursuant to North Dakota Century Code Section 49-05-04.3 for Northern States Power Company, dba Xcel Energy (NSP). On July 22, 2014 NSP filed its 2014-2015 TCR tariff requesting approval of cost recovery for specific projects and a resulting TCR rate of \$0.001994 per kWh. The average bill impact would be an increase of \$1.50 per month for a typical residential customer without electric space heating using 750 kWh per month.

The issues to be considered in this proceeding are:

1. Whether the proposed rate adjustment complies with NSP's tariff,
2. Whether the incurred costs for new or modified electric transmission facilities are reasonable and prudent, and
3. Whether the incurred costs are eligible for recovery through the TCR rider.

Those interested are invited to comment on the application in writing. Persons desiring a hearing must file a written request identifying their interest in the proceeding and the reasons for requesting a hearing. **Comments and requests for hearing must be received by November 12, 2014.** If deemed appropriate, the Commission can determine the matter without a hearing.
