In re: ONEOK Rockies Midstream, L.L.C.
Application for Certificate of Site Compatibility
Demicks Lake Gas Processing Plant
Case No. PU-14-764

Dear Brian:

Thank you for your letter dated January 26, 2015 enclosing the proposed Certification Relating to Order Provisions and Tree and Shrub Mitigation Specifications. We have had an opportunity to review the proposed certification except that ONEOK would propose that paragraphs 30 and 33 of the certification be modified as set forth on the attached document.

As you know, we have been concerned for some time that certain provisions in the standard certification at least arguably are not consistent with the provisions of Section 49-22-03(3) of the North Dakota Century Code with respect to how future modifications or additions that lie entirely within the footprint of a certificated facility are to be handled. In my opinion, the attached revisions do nothing more than insure that the certification provisions and the statute are consistent.

Please let me know your thoughts on this matter. While I could have the entire certification re-typed, if you could have the changes made or provide me with a Word version of the document, it would be appreciated. We would also be happy to consider any counter-proposals you might wish to make on behalf of the staff.

Thank you for your assistance in this regard.

30. Company understands and agrees that it shall inform the Commission in writing of any plans to modify the energy conversion facility, or of any plans to modify the site plan for the energy conversion facility. Company understands and agrees to will either comply with the requirements of Section 49-22-03(3) or, if the modification is not within the parameters established by Section 49-22-03(3), obtain written approval from the Commission prior to any modifications to the site plan or the energy conversion facility, associated facilities, and roadway locations. Except as otherwise provided in Section 49-22-03(3)(b), which does not require notice and hearing for approval, Approval may be granted after notice and opportunity for hearing.
33. Company understands and agrees that in the event Company desires to construct within any site granted by a Certificate of Site Compatibility in this proceeding, an energy conversion facility that was not requested in Company's application in this proceeding, Company shall either comply with the requirements of Section 49-22-03(3), if applicable, or apply for a Certificate of Site Compatibility for the facility.
