RE: Conditional Use Permit 0009-18

This is to inform you that at the April 17th, 2018 meeting, the McKenzie County Board of Commissioners approved the request for a Conditional Use Permit 0009-18 to construct a 200 MMSCFD gas plant, and clear space on site to build a second gas plant of the same size in Section 20, township 151-N, Range 96-W

The following conditions were placed on this permit:

1. The applicant shall have a completed SWPPP into the Planning & Zoning Department before the start of any dirt work.
2. The applicant shall adhere to noxious weed containment plan as submitted to the County Weed Control Officer.
3. The applicant shall maintain a site free of garbage, from within the site, or from outside sources, during construction and operation.
4. The applicant shall provide the County Planning Department with all State and Federal approvals, along with any violations relating to the project.
5. The applicant shall engineer the improvements of approximately one and a half miles commencing at the intersection of County Road 12 and 113th Ave. Road improvements shall head South on 113th Ave. to 33rd St. then Eastward to the ONEOK entrance. A contract between ONEOK and the County shall be executed for the construction of the road. Timing of the construction to be determined in the contract. The remaining frontage of 33rd St NW to be paved by ONEOK when and if the road is extended Eastward to their eastern property line.
6. Applicant shall follow all federal, state and local laws pertaining to this project.
7. This conditional use permit will remain in force for one year but can be terminated if there are violations or changes of the approved conditions. Any violation can cause this CUP to be placed before the County Commission for revocation. This Conditional Use Permit will be inspected annually.
8. All above-ground facilities, such as pipe valve stations, stand pipes or electrical shall be painted earth tone colors to better blend in with the surroundings.
9. Applicant shall provide notice of approved approach and/or utility permits into the Planning Department within thirty (30) days of County Commission approval or before construction begins, whichever comes first.

Sincerely,

Jim Talbert, Director
McKenzie County Planning and Zoning
