Re: Case No. PU-14-769, Little Muddy Creek Project

Dear Mr. Morrison:

Thank you for the as-built drawings filed on March 10, 2017 for the Little Muddy Creek project. Paragraph 32 of the Certification Relating to Order provisions agreed to by the companies provides:

32. Company agrees to provide the Commission with both an electronic and a paper copy of the corridor approved by the Commission and the facility design specifications for the construction of the transmission facility showing the location of the transmission facility as built, and will provide this information within 3 months of the completion of the construction. Company also agrees to provide an electronic version of the corridor approved by the Commission and the facility design specifications for the construction of the transmission facility showing the location of the transmission facility as built that can be imported into ESRI GIS mapping software within 3 months of the completion of the construction. This electronic map data must be referenced to the North Dakota coordinate system of 1983, North and/or South zones US Survey feet (NAD 83) UTM Zone 13N or 14N feet (NAD 83), or geographic coordinate system (WGS 84) feet. The vertical data must be in the appropriate vertical datum for the coordinate system used. All submissions must specify the datum in which the data was developed.

It appears that the electronic version of the corridor approved by the Commission was not included in the March 10, 2017 filing. Please provide as soon as possible.

Thank you,

Jerry Lein
Staff Engineer
