Re: PU-14-83  
North Killdeer Loop Phase 1345 kV Transmission  
OAH File No. 20140526

Dear Mr. Nitschke:

On November 12, 2014, Basin Electric Power Cooperative filed an Application for a Consolidated Certificate of Corridor Compatibility and Route Permit in the above mentioned docket. Included in this application were three new 345/115-kV substations, Roundup Substation near Killdeer, Kummer Ridge north of Killdeer and east of Watford City and Patent Gate, east of Alexander. The purpose of this letter is to withdraw the Roundup Substation near Killdeer as an associated facility for consideration by the Public Service Commission in this matter. The remaining of the Project remains unchanged.

Very truly yours,

A handwritten signature in black ink that reads "Cris Miller".

Cris Miller
