On 1/18/17 I preformed the requested inspection (inv# 59062) on the scale at, Walsh Grain Terminal (8678), Park River. It was tested and found correct. The inspection yielded 'no changes from last inspection'. It is my recommendation that a permanent variance be issued.

Hi Wayne

Just a reminder to do these two inspections, if you haven't done so already. I'm going to input the scale test reports for Paterson Grain and then update the database. You will need to update your database, so you will be able to find the company.

I'll send you an email when the database has been updated.

Thank you!
