Subject: Variance Permit Request

From: James A. Richard, Terminal Supervisor Dakota Prairie Refining, LLC
3815 116th Ave SW
Dickinson, ND 58601
(701)456-6933

Dakota Prairie Refining (DPR) request a permit variance for the exclusion of the typically required camera and intercom system on the LPG Skid truck scale. The state requires a camera and two way intercom whenever the distance between the scalehouse (where scale indicator is located) and the receiving element (scale deck itself) exceeds 200'.

The DPR terminal located 4 miles west of Dickinson, ND is equipped with a Mettler-Toledo model VTF101 pitless scale 120' long, S/N B412433564, capacity 200,000

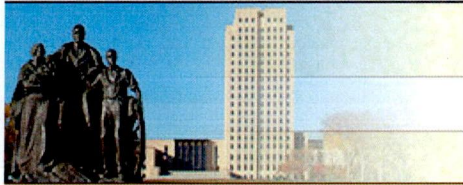

We request this variance because this equipment could give a false appearance of a safety item and could result in calls for assistance going unheard by DPR. We do not plan on staffing this terminal area with an operator in the scale house during the 24 hour automated loading times. The scale will be used in conjunction with a Accuload III and Guardian 3 loadout control system that is equipped with a maxium load preset.

Respectfully,

James A. Richard
Terminal Supervisor

Generate an Annual Report To File

To Generate a Annual Report form to be filed with the Secretary of State, select the appropriate year of the report you intend to file. This report does not contain details of a report previously filed with the Secretary of State. The annual report years reflected are an indication of the various report forms available in this site and is not an indication that an entity needs to file reports for all years. Missing years indicate that the forms for the missing year have not yet been deployed to the website, or have already been removed, and can be obtained by contacting the Secretary of State.
