Subject: PU-14-842 Dakota Access Pipeline - Reportable Injury #11

Commissioners:

I received a notification this morning from Kathy Moreno (HR representative for Dakota Access), who stated that an employee of a security contractor on Spread 7 (near Mandan) was injured last week (Friday 1/6/17) when he cut two fingers on a fence. The individual received stitches for the injury and returned to work the next day.

Per the Certification to Order Provisions attached to the Order in this case (provision #27, see below), Dakota Access is required to notify the Commission within five business days when an injury to any person occurs.

- 27. Company understands and agrees that it shall advise the Commission of any extraordinary events which take place at the site of the transmission facility, including injuries to any person, or the death of any threatened or endangered species on the site within five business days of such event.**

Thanks,
Julie
