On July 23, 2015, Targa Badlands, LLC (“Targa”) filed a Petition to Reopen Proceeding pursuant to North Dakota Administrative Code Section 69-02-06-01 (“Petition”). The purpose of the Petition is to correct a typographical error in the record. The error is contained in Targa’s Application for a Certificate of Site Compatibility (“Application”) for the Little Missouri Gas Plant, and the corresponding amendments submitted for the Application. *See* Docket Nos. 1 and 15. The Application was admitted as Exhibit 1 at the public hearing on Targa’s Application. *See* Docket No. 22.

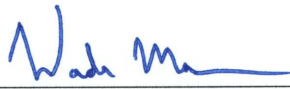

The Application contained a typographical error in the legal description of the facilities. The township, range, section and quarter section of the legal description were all correct in the Application. The typographical error involved only an incorrect quarter quarter section. Targa is petitioning to be allowed to submit replacement pages for pages 10 and 11 of the Application (Docket Nos. 1 and 15 and Exhibit 1 (Docket No. 22) in order to correct the error in the legal description and ensure an accurate record.

The hearing on Targa's Application took place on April 15, 2015. A final order on the Application has yet to be issued. Targa's Petition meets the requirements of N.D. Admin. Code § 69-02-06-01 and no response to the petition has been received from any party.

Having considered the Petition and attachments, and the applicable statutory provisions and administrative rules, it is hereby ORDERED that Targa's Petition to reopen pursuant to N.D. Admin.
