Re: Cost of Gas Adjustment
(COG) Rate 88 and Rate 99
Case No. PU-15-008

In accordance with North Dakota Century Code Section 49-05-05, Montana-Dakota Utilities Co. (Montana-Dakota), a Division of MDU Resources Group, Inc., respectfully submits an original and two (2) copies of a Cost of Gas (COG) change pursuant to the terms of Rates 88 and 99.

Attachment A is the Rate Summary Sheet showing the proposed natural gas rates, with currently effective distribution rates.

Montana-Dakota purchases gas supplies under a number of contracts. The commodity cost of gas has decreased \$0.337 per dk since the October 1, 2015 rates due to a decrease in the overall commodity price of gas. Attachment B explains the reasons for the decrease in the market price of gas. In addition, there has been a system wide change in demand allocation resulting in a decrease of approximately \$0.010 per dk in North Dakota.

The COG tariff sheet, Exhibit A page 1, summarizes the gas cost adjustment, the surcharge adjustment, and the market based pricing differential provision, calculated pursuant to the terms of Rate 88 that will apply during the month of December 2015.

The net effect of this filing, calculated pursuant to the terms of Rate 88, is a decrease of \$0.347 per dk for residential customers and firm general customers, a decrease of \$0.341 per dk for small and large interruptible customers and a decrease of \$0.340 per dk for Air Force interruptible customers from the currently effective rates.

Exhibit B shows the calculation of the current gas cost adjustment that will be applicable to Montana-Dakota's customers for the month of December 2015. The average cost of gas for firm customers, adjusted for losses, is \$3.715.

Exhibit C shows the calculation of the return on storage inventory balances and prepaid demand and commodity balances using the calculation procedure set forth in Rate 88. The overall rate of return of 7.340% was authorized by the Commission in Case No. PU-15-90.

Montana-Dakota purchases propane supplies from various wholesale suppliers. The cost of propane increased since the last COG filing due to an increase in the market price of propane from that established in the November 2015 filing.

Exhibit A, page 2 summarizes the cost of gas – propane calculated pursuant to the terms of Rate 99, which will apply during the month of December 2015. The net effect of this filing is an increase of \$2.305 per dk for all customers from the currently effective rates.

Exhibit D shows the calculation of the current cost of gas – propane that will be applicable to Montana-Dakota's customers for the month of December 2015. The average cost of propane for all customers, adjusted for losses, is \$5.599 per dk.

Exhibit E shows the computation of the (over)/under recovered gas cost account balances.

These proposed adjustments, calculated in accordance with Rate 88, will amount to a decrease of approximately \$954,900 for natural gas customers during the month of December 2015. All of Montana-Dakota's retail natural gas customers in North Dakota may be affected by this proposal. There were 106,523 natural gas customers and 343 propane customers in North Dakota as of October 31, 2015.

Please refer all inquiries regarding this filing to:

Ms. Tamie A. Aberle
Director of Regulatory Affairs
Montana-Dakota Utilities Co.
400 North Fourth Street
Bismarck, ND 58501

Also, please send copies of all written inquiries, correspondence and pleadings to:

Mr. Daniel S. Kuntz
Associate General Counsel
MDU Resources Group, Inc.
P. O. Box 5650
Bismarck, ND 58506-5650

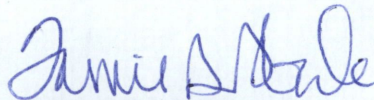

Montana-Dakota submitted a check on December 8, 2014 to the North Dakota Public Service Commission for \$650 pursuant to the requirements of North Dakota Century Code Section 49-05-05. This payment will cover the filing fee associated with the monthly COG filings.

Montana-Dakota respectfully requests that this filing be accepted as being in full compliance with the filing requirements of this Commission.

Please acknowledge receipt by stamping or initialing the duplicate copy of this letter attached hereto and returning the same in the enclosed self-addressed stamped envelope.

If you have any questions regarding this filing, please contact me at (701) 222-7856 or tamie.aberle@mdu.com

Sincerely,

Tamie A. Aberle
Director of Regulatory Affairs

Case No.: PU-15-008

**Montana-Dakota Utilities Co.
Market Conditions for Regional Natural Gas**

December 2015

The established monthly price for the Rocky Mountain CIG Index has decreased from the previous filing. The CIG Rocky Mountain Index is based on a price discovery survey by several natural gas periodicals, including "Inside FERC Gas Market" report and "Gas Daily" by McGraw-Hill Companies, of prices paid by willing sellers and buyers of quantities of gas in that region. That price is reflective of natural gas prices in the Rocky Mountain region and indicative of the supplies Montana-Dakota purchases for its requirements.

The domestic supply of natural gas continues to be strong resulting in national storage levels approaching record levels going into the start of the heating season. This, along with warmer than normal temperatures over a portion of the U.S, resulting in a delay to the upcoming heating season, were reasons for the decrease in the price of natural gas. The EIA reported the national storage level as of October 23, 2015, was 4.1 percent above the five-year average and 11.8 percent above last year's storage balance.

The EIA provides various publications on energy issues. The information is available on their website: <http://www.eia.gov>.

Administrative Fee 5/			\$325.00					

- 1/ Casper Division service area is defined on Sheet Nos. 2 and 3 of this Tariff.
- 2/ All charges are per therm.
- 3/ For fuel, lost and unaccounted for gas, the Company shall be entitled to retain the stated percentage of all therms received for transportation, unless otherwise agreed in writing. On or before March 1 of each year, the Company shall file with the Commission an application to revise the stated percentage to be effective June 1 of that year through May 31 of the following year. The Company shall calculate the stated percentage using not less than twelve (12) consecutive months of actual data.
- 4/ Interruptible Transportation Service is not available to DSE customers. The Customer Charge will be charged only for those months gas actually flows.
- 5/ In addition to the transportation charges stated above, Shippers are responsible for the monthly administrative fee as stated, applicable to each meter located at the customer location. For Interruptible Transportation Shippers, the Administrative Fee will be charged only for those months gas actually flows. Firm Transportation Shippers will be charged each month, regardless of gas flow.
- 6/ Per Dth of MDTQ per month.
