To whom it may concern:

In 2016, PSC staff approved a plan to be used by Paradigm for tree and shrub mitigation. All three projects were grouped together for purposes of the reports by county. The overwhelming majority of trees/shrubs to be replaced were in McKenzie County and Paradigm contracted with the NRCS office in Watford City to handle monitoring and planting. There was only one landowner in Mountrail who wanted trees replanted and he wanted to do the work himself (he was planting the trees at his homestead so we paid him for the trees, planting, and monitoring). Attached please find the reports from the NRCS related to the planting which began in 2017. Please let me know if you have any questions.
