Mr. Fahn,

Attached please find planting and monitoring reports from 2018-2020 as well as an email from NRCS personnel re: the numbers of trees planted and losses as explained in the reports. I am also attaching the Tree and Shrub mitigation plan submitted to and approved by PSC staff in 2016 for reference. Please feel free to contact me with any questions you may have.

Jason,

Attached are 2018, 2019, 2020 tree reports. Please disregard the other tree reports you sent. For some reason the labels were rearranged. I went back and looked up every individual and their number of dead trees for each year. So, these are the correct number of trees planted for each year.

Let me know if you have any questions.

Thanks,

*Tanner Roness*

Tanner,

Thank you for taking my call. I have attached the info I have received from your folks over the last few years. I never received any info for 2019.

What I really need to know is how many trees were planted and how many died.

Thank you for your help

---

**Subject:** Paradigm Tree Planting/Monitoring

Karissa,

Thank you so much for calling me back this morning. I have attached all of the paperwork I received from either Jaci or Kassandra re: the tree planting and monitoring. I don't have any information for 2019. What I ultimately need to tell the PSC is how many trees were planted and how many died. I have attached a spreadsheet titled Sacagawea Tree SS with what I believe are the correct numbers based on the info I have. Anything you could provide would be great.

Thank you,

Jason Stelzer

## Tree/Shrub Mitigation

### Sacagawea Pipeline Projects:

- Sacagawea Pipeline (PU-15-114)-McKenzie and Mountrail Counties
- Johnson's Corner Connector (PU-15-744)- McKenzie County
- Palermo to Enbridge (PU-15-670)- Mountrail County

**Project Tree Counts:** Listed below are the tree/shrub replacement counts (Tree Count Spread Sheets attached). Tree Count Spread Sheets attached.

- Sacagawea Pipeline: total of 595 trees/shrubs were removed during construction of the pipeline project necessitating the replanting of 1190 trees/shrubs.
- Johnson's Corner Connector: a total of 519 trees/shrubs were removed during the construction of the pipeline necessitating the replanting of 1038 trees/shrubs.
- Palermo to Enbridge: No trees/shrubs were removed during the construction of the pipeline.

**Tree/Shrub Mitigation Plan:** Sacagawea Pipeline Company, LLC will contract with the Natural Resource Conservation Service offices in both McKenzie and Mountrail counties whose soil conservation offices each have programs whose task/goal is to plant and monitor new trees in their respective counties. NRCS officials meet with individual landowners to develop a plan for tree planting on their property. In the case of landowners who do not want trees replanted on their property, both offices also have collections much like the state tree bank to allow for the planting of trees in other areas of their respective counties. Trees planted on property not legally accessible to Sacagawea Pipeline Company, LLC will be monitored by those individual landowners. For landowners that requested that the replacement trees/shrubs be planted on their property, the NRCS office will make a tree plan with each landowner, install a weed barrier which will also help with moisture retention, plant the trees, and monitor the trees for mortality for 3 years. Trees will be planted in the spring and monitored each fall. Any trees that are found to be dead will be replaced and monitored. Sacagawea Pipeline Company, LLC will be billed for all work performed by the respective offices. Trees placed in the "tree bank" will be planted at the discretion of each NRCS office. The tree counts, tree replacements, and trees to be banked are listed below by county:

- McKenzie County

| Total Replacement Trees/Shrubs | Total Trees/Shrubs to be planted in the project area | Trees/Shrubs given to NRCS Tree Bank |
|--------------------------------|------------------------------------------------------|--------------------------------------|
| 2056                           | 1666                                                 | 390                                  |

- Mountrail County

|                                           |                                                                 |                                                 |
|-------------------------------------------|-----------------------------------------------------------------|-------------------------------------------------|
|                                           |                                                                 |                                                 |
