Chad Armstrong, Director
Wade Grenier Director
Kimberly Lemieux, Director
Michael Stewart, Director

Wade Sherwin, Superintendent/
Elementary Principal
Katie Crofutt
Secondary Principal
Michele Grenier
School Business Manager

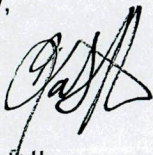

To Whom it May Concern-

I am writing this letter in support of the proposed wind farm in Rolette County. My support for this project is based in the financial increase that our school would receive from a raise in our tax base.

Rolette Public School is a small, rural school that serves roughly 160 students k-12. We strive to provide the best 21st century education possible for our students, and I believe we do that, but we are often forced to employ creative methods to do so due to a lack of funds. We struggle to keep up-to-date technology and curriculum resources because of low state funds and often rely on grants to supplement those funds. An increase in our tax base would allow us to serve our students in a way that we aren't currently able to, and that is an exciting prospect!

Please consider this letter of support and the needs of our school district when deciding on the future of the Rolette County Wind Farm.

Sincerely,

Katie Crofutt
High School Principal
