**2014** | CORPORATE  
RESPONSIBILITY REPORT

# Delivering for OUR ENVIRONMENT

## Highlights

1. NextEra Energy and FPL achieved lowest-ever air emissions rate in 2013
2. We have made substantial infrastructure investments that increase power plant efficiency and reduce air emissions without increasing our rate of water use
3. We manage programs to protect a wildlife species and their habitats, including eagles, kestrel, sea turtles, crocodiles, and osprey

## Environmental Stewardship

At NextEra Energy, we're committed to being an industry leader in environmental protection and stewardship. As citizens, we're all stakeholders of our earth's environment. As an energy company, we recognize that environmental protection and stewardship are rewarded with financial success.

Our Environmental Policy establishes our core environmental expectations and provides actionable guidance for all employees as we strive to foster a culture of environmental excellence and challenge ourselves to continuously improve. The policy is incorporated in our Code of Business Conduct & Ethics and Supplier Code of Conduct, which apply to our employees and suppliers, respectively. Everyone at NextEra Energy understands that protecting the environment is a collective responsibility. It's why our senior executives are actively involved in our environmental accountability, management and stewardship programs that are intended to:

- Design, construct, operate, and maintain our facilities in an environmentally sound and responsible manner;
- Prevent pollution, minimize waste, and conserve natural resources;
- Avoid, minimize, and/or mitigate impacts to habitat and wildlife; and
- Engage stakeholders to build trust and partner toward common goals for environmental stewardship and protection.

We want to be the first and best source of information for our stakeholders to learn about our environmental performance. That's what it means to be the clean energy leader. And that's how we deliver for the environment.

The protection of our natural environment is not only important to our business, but also to our employees, customers and our communities. This is why we are committed to being an industry leader in environmental protection and stewardship, and our exceptional environmental performance record and clean energy portfolio demonstrate just how well we are doing.

-Randy LaBauve, Vice President of Environmental Services
