Description (summarize the observations on which you rely to allege the violation) *If more space is required, please provide the description on a separate page.*

I called and spoke to Andrew Hubbell and he explained that he was previously working on another contractors expired one call ticket and was told to place the emergency ticket. I explained that his work was not an emergency. He then told me there had been a line strike by another company and was told to place the emergency ticket. He stated also he told the one call center to include the line strike in the comments of his one call ticket. I contacted Jon Earley with ND One call and they reviewed the conversation and verified the mentioned line strike had nothing to do with his company scope of work. This false emergency causes increase risk to all parties responding by having to pull off existing work to respond per ND Law. ND One Call ticket # 15064371
