VIA E-MAIL AND FEDERAL EXPRESS

Mr. Darrell Nitschke
Executive Secretary
North Dakota Public Service Commission
600 E. Boulevard, Dept. 408
Bismarck, ND 58505-0480

**RE: NST Express, LLC's Consolidated Application for a Certificate of Corridor Compatibility and Route Permit, and Waiver Application
Case No. PU-15-232**

Dear Mr. Nitschke:

In accordance with Certification Provision No. 3 of the North Dakota Public Service Commission's October 14, 2015 Findings of Fact, Conclusions of Law and Order issuing a Certificate of Corridor Compatibility and Route Permit for the NST Express Pipeline Project, NST Express, LLC hereby submits two (2) copies of the following documents:

1. North Dakota Department of Health Notice of Coverage Under North Dakota Pollutant Discharge Elimination System General Permit for Stormwater Discharges Associated with Construction Activity (Permit No. NDR10-0000), dated April 5, 2016; and
2. McKenzie County E-mail Regarding Zoning Permit Approval, dated April 7, 2016.

Electronic copies of the above-referenced documents and this letter were filed with the Commission today via e-mail.

North Dakota Pollutant Discharge Elimination System (NDPDES)
General Permit for Stormwater Discharges from Construction Activity
NOTICE OF COVERAGE

Permittee(s)

Owner Contact: Chip Lang
NST Express, LLC
10077 Grogans Mill Road
Suite 530
The Woodlands, TX 77380

Operator Contact: CC: Matt Conway, Director of Engineering

Coverage under the 2015 reissued construction general permit (NDR10-0000) is identified as follows:

Permit ID: **NDR108301** Site Name: **NST Pipeline and Transload Project**

Please remember to update the Stormwater Pollution Prevention (SWPP) plan as appropriate for site conditions. The best management practices (BMPs) and temporary structures must be inspected, maintained and adjusted until the site is stabilized following construction activities. Once the site is stabilized as outlined in the general permit, you may end permit coverage by filing a termination notice. Cities or counties may impose additional requirements and/or specific BMPs for construction affecting their storm drainage system. Please check with the local officials to be sure all local stormwater management considerations are addressed.

Additional Information

The permit conditions, forms and related information may be found on our web site at:

www.ndhealth.gov/wq/Storm/Construction/ConstructionHome.htm

Should you have any questions on the permit, please contact a stormwater staff person listed below.

Subject: RE: Electrical Enclosure Vendor Drawings

Nicole,

Your zoning permit is approved. I will need stamped and engineered drawing on the ones you and I are waiting for as discussed. At this time you can proceed with your construction of your project with the exception of the buildings that are still needing building permits. I believe it is only the one that is in question. I also need you or the owner to fill out the affidavit for the other buildings not heated or cooled exempting them from the building code and permitting issue's. Please see this document (attached) for that information. I will call you back later or call me again so we are clear on what we need from each other to continue. Thanks,

Scott Twogood

Subject: FW: Electrical Enclosure Vendor Drawings

Scott –

As discussed, please find attached unsigned/unsealed electrical enclosure drawings. Once we receive a signed/sealed set we will overnight it to you.
Signed/Sealed drawings for the foundation were included in the previous submittal.

Also, the modular trailer will only be temporary, and as such, no permanent foundation is being constructed.
Signed/Sealed drawings for the trailer were included in the previous submittal.
We also confirmed that the PE stamps are from the original design and therefore were not re-signed for this project.

Please let me know if you need anything else.
Thank you!
