

Case No. NPU-15-482  
Lindahl Wind Project

October 8th, 2015

North Dakota Public Service Commission  
600 E. Boulevard, Dept. 408  
Bismarck, ND 58505-0480

Dear, Commissioners

I'm Jason Hove, son of Brian and Kathy, I farm and ranch along side my parents. Right now I am looking at building a house on the south side of my parents farmstead in section 15. If the Wind turbines go up in section 16 they will be in direct eye sight of where my house will be. The reason I'm going to put a house on that location is because our cattle setup during the winter calving months, the highway accessibility, and knowledge of a successful water well and with hope of a Rural Water tie-in in the future. So I'm asking for the wind turbines to be moved off of section 16 and moved to our neighbors who want them.

Sincerely,

A handwritten signature in blue ink that reads "Jason G. Hove".

Jason G. Hove
