to whom this may concern, My name is Jerol Gohrick, I am a resident of lindahl township and a supporter of this project. I am on the township Board and have received lots of support from the township for this project. I cannot make it to this meeting tonight but I would just like to express my opinion that this project is a very good thing for the community. I understand through hearsay that we have ONE family who is trying to shut this down. and it is only one family that is against it it is not right for one family to try to ruin something for the whole community.

Sincerely,
Jerol Gohrick
