**RE: Lindahl Wind Project, LLC  
Lindahl Wind Farm Project – Williams County  
Case No. PU-15-482**

Dear Mr. Fahn:

As requested in your August 2, 2021 Notice and Request for Status Updates, Lindahl Wind Project, LLC (“Lindahl”) provides this monthly update regarding the status of its compliance with installation of light-mitigating technology on the Lindahl Wind Farm Project (“Project”). As noted in our prior letters, Lindahl has completed installation of an Aircraft Detection Lighting System (“ADLS”) at the Project. At this time, Lindahl continues to be in the process of completing networking adjustments to facilitate communications between the Project turbines and the ADLS. Lindahl continues to anticipate the system will be fully functional before the end of 2021.

An electronic copy of this letter was filed today with the Commission via e-mail. If you have any questions, please let me know.

Sincerely,

MOLLIE M. SMITH
