**Project: Lindahl Wind Project, LLC**  
**Lindahl Wind Farm Project – Williams County**  
**Case No.: PU-15-482**

The Commission's December 2, 2015, Findings of Fact, Conclusions of Law, and Order issued Certificate of Site Compatibility No. 47 to Lindahl Wind Project, LLC (Lindahl) for the location of a 150 MW wind farm in Williams County North Dakota.

**Reclamation and Revegetation**

On November 2, 2018, the Commission's third-party inspector filed with the Commission a Reclamation Inspection Report regarding the Project. The Report may be viewed at <https://psc.nd.gov/database/documents/15-0482/117-010.pdf>.

Page 1 of the Report mentions items that needed further attention including:

- Stripping the topsoil at the laydown yard and decompaction of the subsoil to improve crop growth and yield across the area.
- A vegetation burn followed by re-seeding on State School Trust property.
- Completion of earthwork and re-seeding at two locations near Turbines B4 and B3.

Commission Staff asks that, by January 29, 2022, Lindahl respond in writing to the Commission stating the current condition of the areas identified in the Report and actions that have or will be taken to resolve the concerns noted in the Report.

Best regards,

Patrick Fahn  
Director, Public Utilities Division
