RE: Grain Warehouse Inspection

Dear Mr. Shockman:

The Public Service Commission's Grain Warehouse Inspector(s) recently completed a routine grain warehouse examination at Larson Grain Company at the Englevale location. The examination consisted of one or more of the following:

1. Reviewed company operations to determine if generally accepted business practices and state warehousing laws and rules were being adhered to, if documents complied with statutory requirements, and if required notices were posted appropriately.
2. Physically inspected warehouse facilities, to determine if grain was being stored only in approved space and whether the stated physical capacity was accurate and adequately bonded.
3. Physically measured all grain on hand to determine if inventories agreed with company records and were of a kind, quality, and quantity sufficient to cover all outstanding storage obligations.

At the conclusion of the examination, the inspector(s) issued a Memorandum of Adjustment (MOA). A MOA is the final product of an examination and discloses any conditions that must be corrected. There were no conditions noted. The MOA was presented to the Merchandiser for review and signature.

A copy of the MOA is being provided to you as a courtesy. If you have any questions, I can be reached at 701-328-4097.

Sincerely,

Susan K. Richter  
Licensing Division Director
